An elegant oval silhouette and artful combination of materials give the Cashiers Oval Cocktail Table a light yet distinctive presence in the living room. Inspired by the refined ease of gracious country interiors, its flowing shape softens a seating arrangement while creating a sophisticated centerpiece for conversation, entertaining, and everyday living. The wood top and fixed wood shelf feature European Oak veneers in the light Almond finish, revealing the natural grain, knots, and subtle texture of the wood. The warm, weathered tone lends a relaxed, organic character to both surfaces, while the textured aged brass metal frame introduces a rich contrast and artisanal character. Together, the wood and metal create a layered look that feels collected and beautifully considered. The fixed lower shelf provides generous space for books, decorative accents, or other living room essentials while maintaining the table's open profile. Its oval form encourages an easy flow around the seating area and provides ample surface space without the visual weight of a more substantial silhouette. Balancing natural wood character with the warmth of aged metal, the Cashiers Oval Cocktail Table offers a sophisticated interpretation of traditional design for modern living. Its graceful proportions, versatile shelf, and thoughtfully paired materials create an inviting centerpiece for a well appointed living room.
