CLEAR FILTER PRO

Advanced thin film filter for improved brightness and contrast, reduced reflection and truer color reproduction.

EXTREME CONTOUR COMPENSATION (XCC)

Minimizes color contour noise for natural color transitions.

LG SIMPLINK™

Allows for convenient control of other LG Simplink products using the existing HDMI connection.

LG'S EXCLUSIVE XD ENGINE®

Six distinct processes contribute to picture improvement. LG's XD Engine® takes the low resolution of analog signals to near HD levels by improving brightness, contrast, detail and enhancing color as well as reducing signal noise. This total solution results in cinema-like high resolution images.

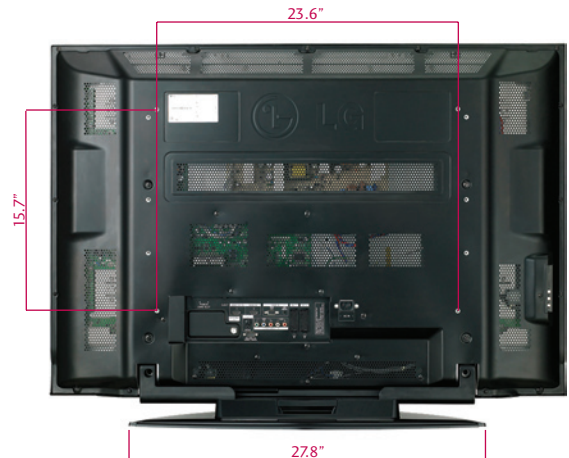

IMAGE STICKING MINIMIZATION

Provides protective measures to minimize damage as a result of stationary images.
