

## WALL CLOCK

To open or close the bezel (glass cover) rotate it 18 degrees counter-clockwise.

### Instructions

The clock works on two (2) AA size alkaline batteries or an AC/DC 100–240 V Adapter for the LED lights.

### Initializing

The hands of the clock are heavy and require protection from shock whenever the clock is moved. A piece of foam stabilizer is attached to the tips of the hour and minute hands to buffer the shock. Remove the foam stabilizer before inserting the batteries. The bezel ring is fitted to the clock by a bayonet mount. To remove the bezel, turn it 18 degree counter-clockwise and lift it off. Remove any dust or foreign particles from the dial/flange before refitting the bezel. When refitting the bezel make sure that the top 12H round dot on the bezel realigns with the 12H Arabic number on the dial.

**IMPORTANT NOTE:** Whenever the clock is transported, make sure that the hour and minute hands are re-stabilized.

**Battery and Power**

The clock runs on 2 AA batteries or AC/DC power.

Insert the jack of the AC/DC 100-240 V Adapter to the socket on the clock case at 6H location. There is a sliding switch on the back to turn the LED light on and off.

**Day Visibility**

To operate the clock during the day use the AA size batteries.

**Night Visibility**

For full night vision use the AC/DC Adapter.

**To replace the LED light bulbs**

Remove the screws on the back cover to expose the LED bulbs. Unscrew the defective bulb and replace with a new one.

LED holder

**LIMITED WARRANTY**

This Manufacturer's Warranty Covers: Material and manufacturing defects existing at the time of purchase. Warranty coverage commences only if the warranty certificate is dated and completed by an authorized Luminix retailer. Warranty exceptions are listed below.

Duration of Warranty Coverage: This limited warranty runs for a period of two (2) years from the original date of purchase.

This Manufacturer's Warranty Does Not Cover: (1) normal wear and tear (or aging), bezel, battery, AC/DC Adapter; (2) damage to your clock caused by tampering with, misuse or abuse; (3) damage to the clock case or movement caused by submersing it into water; (4) defects or damage to your clock resulting from battery replacement, service or repairs performed by non-authorized Luminix Service or repair centers; (5) a clock obtained from an unauthorized Luminix dealer/retailer.

What We Will Do to Correct the Problems: If your clock proves to be defective, we will (at our option), either repair or replace it.

**Limitation of Duration of Implied Warranties: Limitation of Remedies:**

THE DURATION OF ANY IMPLIED WARRANTY ON THIS CLOCK, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED TO THE DURATION OF THE LIMITED WARRANTY STATED HEREIN. IN NO EVENT WILL THE MANUFACTURER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you.
