

KitchenAid®
FOR THE WAY IT'S MADE.®

KitchenAid® KUDE03FT Dishwasher Featuring the EQ™ Wash System

This is the quietest KitchenAid® Dishwasher ever – and this new level of quiet comes without sacrificing the washing and drying performance that built the KitchenAid® Dishwasher reputation. Here are a few key features of this new dishwasher:

STRONG REASONS TO BELIEVE

UNCOMPROMISED CLEANING & DRYING: LESS NOISE. LESS WATER. LESS ENERGY.*

1 *Exceptionally
Quiet*

A new, variable-speed motor helps make this new dishwasher the quietest KitchenAid® Dishwasher ever! The variable speed motor can adjust its operating capacity depending upon the wash cycle selected, reducing or eliminating many of the normal operating noises. ***This dishwasher has a rated operating sound of only 48 dBA*!***

* Per IEC Standards, Normal Cycle

*Uncompromised
Performance* **2**

Pressure Optimizing Wash Arms concentrate water flow to maximize cleaning effectiveness, while focused wash zones concentrate wash energy on one targeted area of the dishwasher at a time. ***These components help the wash system achieve optimal cleaning performance.***

3 *Highly
Efficient*

As water circulates within the dishwasher, three levels of filtration capture food particles to prevent them from re-depositing on dishes. ***This is another feature of the wash system that requires less water and energy than other KitchenAid® full-sized dishwashers.***

ADDITIONAL KITCHENAID® DISHWASHER PERFORMANCE FEATURES

WASH AND DRY FEATURES CONSUMERS CAN COUNT ON

Two popular features, found on other KitchenAid® Dishwashers are also found on this new dishwasher – providing further proof of uncompromised KitchenAid® Dishwasher performance.

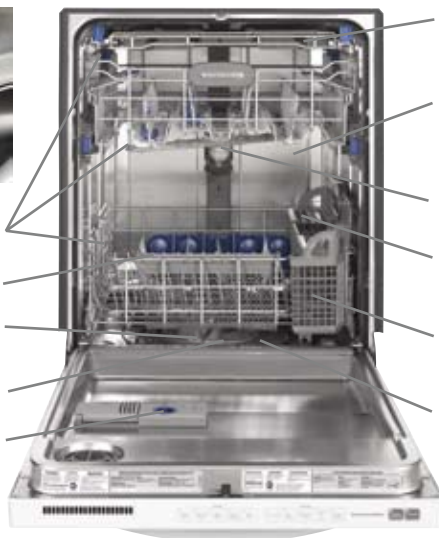

- **ProScrub® Option with Targeted Spray Jets** master stubborn messes so pots and pans don't need soaking or pre-scrubbing before they are washed in the dishwasher.
- **Dual-Watt Heating Element** heats the interior of the dishwasher (in addition to the water), for enhanced drying performance.

3 Levels of Filtration

For 2008, KitchenAid advances the state of dishwashing performance and efficiency with a new level of quiet.

A few highlights:

- This is the quietest KitchenAid® Dishwasher ever – much quieter than casual conversation
- New EQ™ Wash System reduces water usage, energy consumption, and noise
- Architect® Series II Styling – forward-thinking design in a look shared by the entire suite

* KitchenAid® Dishwashers with the EQ™ Wash System are quieter, and use less water and energy than previous KitchenAid® Dishwashers.

1 Per IEC standards, Normal cycle.

2 KitchenAid® Dishwashers are tested and scored according to a protocol developed by the Association of Home Appliance Manufacturers (AHAM); the scores represent a ratio out of a possible score of 100.

3 Tested Model: KUDT Dishwasher.

4 Higher Energy Factor ratings indicate a more energy efficient appliance – see energystar.gov for more information.
