The Triple Interface All-Terrain Hard Disk

3 YEAR WARRANTY

Design by Neil Poulton

Portable, All-Terrain Protection

The best protection of your data requires handling with care, but you and your data don't always live in a peaceful, sterile vacuum. You live in the real world full of bumps, spills and adventures. The ultra-portable LaCie Rugged Hard Disk is your data's best protection for the real world.

Triple Interface: Connect Anywhere

This external storage solution offers the supreme speed of FireWire 800 along with FireWire 400 and Hi-Speed USB 2.0 interfaces for true universal connectivity. Exchanging data between Macs and PCs is easy with LaCie's Triple Interface solution. It even comes with a USB power-sharing cable for low powered USB hubs/computers. Since it's bus-powered and plug & play, simply plug it into just about any computer anywhere.

FireWire 800 Speed for Media Pros

With maximum interface transfer rates of up to 800Mbits/s with FireWire 800 and up to 7200rpm, this high performance hard drive is ideal for audio/video and digital content creators. Take it with you when working on the road or transferring files from one desktop computer to another. It's perfect for Apple PowerBook G5 or G4 users who need data backup, video storage and large data volume exchange like DV video on the go.

Exclusive, Original Rugged Design

Its unique varnished, scratch-protected aluminum shell and shock-resistant rubber sleeve make the LaCie Rugged Hard Disk especially resistant to harsh elements for extra protection wherever you go. The exclusive creation of world-renown designer Neil Poulton, the LaCie Rugged Hard Disk is essentially our award-winning, popular PocketDrive with a new and improved design.

- Rugged, portable storage for people on the go
