## advanced back massage pad

HT-1470 with Robotic Massage™ Technology

**Full-back** kneading and  
rolling massage

Upper and lower back **heat**

**Ultra-slim**, ergonomic design

**Memory foam** seat pad

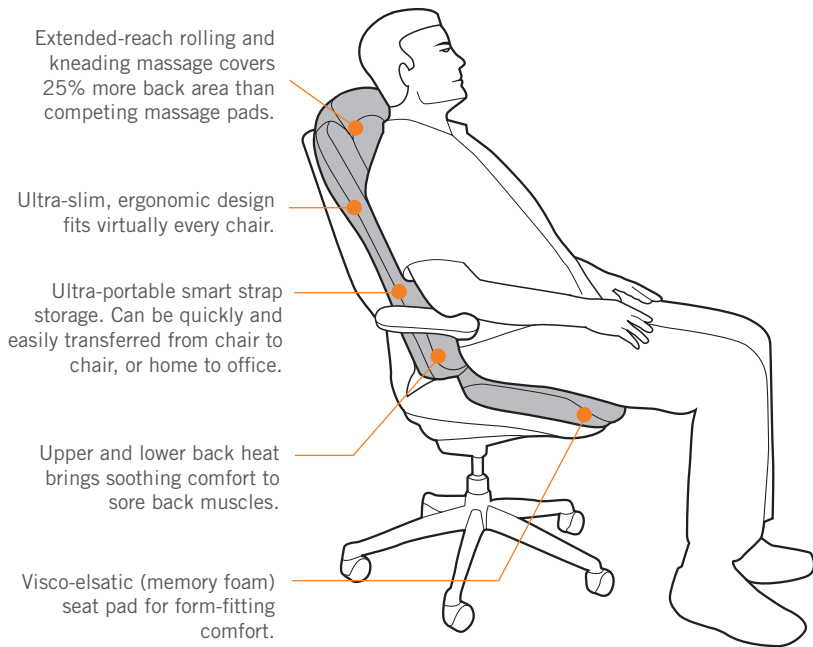

**Two-year** warranty

### Now a rejuvenating, therapeutic massage is as close as the nearest chair.

The new Human Touch® HT-1470 Advanced Back Massage Pad turns virtually any chair or couch at home or in the office into a rejuvenating massage experience. Beyond providing welcome relief for sore, aching muscles, targeted massage such as the HT-1470 delivers has been proven to reduce stress and increase blood flow – making it the ultimate accessory for your healthy, active lifestyle.

Within the HT-1470's thin-profile ergonomic design lies some of the most advanced massage systems and technologies available today. Extended quad-point rolling and kneading massage covers 25 percent more back area than competing massage pads, providing soothing relief from the lower back all the way to the shoulders. Add built-in heat and memory foam for maximum comfort, and the light, ultra-portable pad is the perfect way to jumpstart your day, take a midday break, or just unwind and relax in front of the T.V. You provide the chair, the HT-1470 takes care of the rest.

**More Features For More Comfort**

**MASSAGE CONTROLLER – It's all at your fingertips**

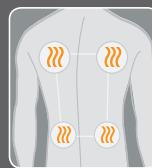

**The Science of *ahhh***

Don't be fooled by the sleek design, easy portability and intuitive operation of the HT-1470. This little baby is packed with some serious advancements for a serious massage.

**FULL BACK MASSAGE**

Extended-reach quad-point massage system delivers a rolling and kneading massage from the lower back all the way to the shoulders – covering 25% more back area than competing massage pads.

**UPPER AND LOWER BACK HEAT**

Therapeutic heat prepares muscles to receive maximum benefit from a full-back massage.

**SLIM DESIGN**

Ultra-thin, soft-body, ergonomic design form-fits the body and fits almost any chair or sofa.

**MEMORY FOAM SEAT PAD**

Visco-elastic foam seat pad molds to the body, providing optimum comfort for each individual user.

**MASSAGE CONTROLLER**

Easily personalize your massage experience to include a full-back or targeted massage, and with or without heat.
