Removable Navigation Drive

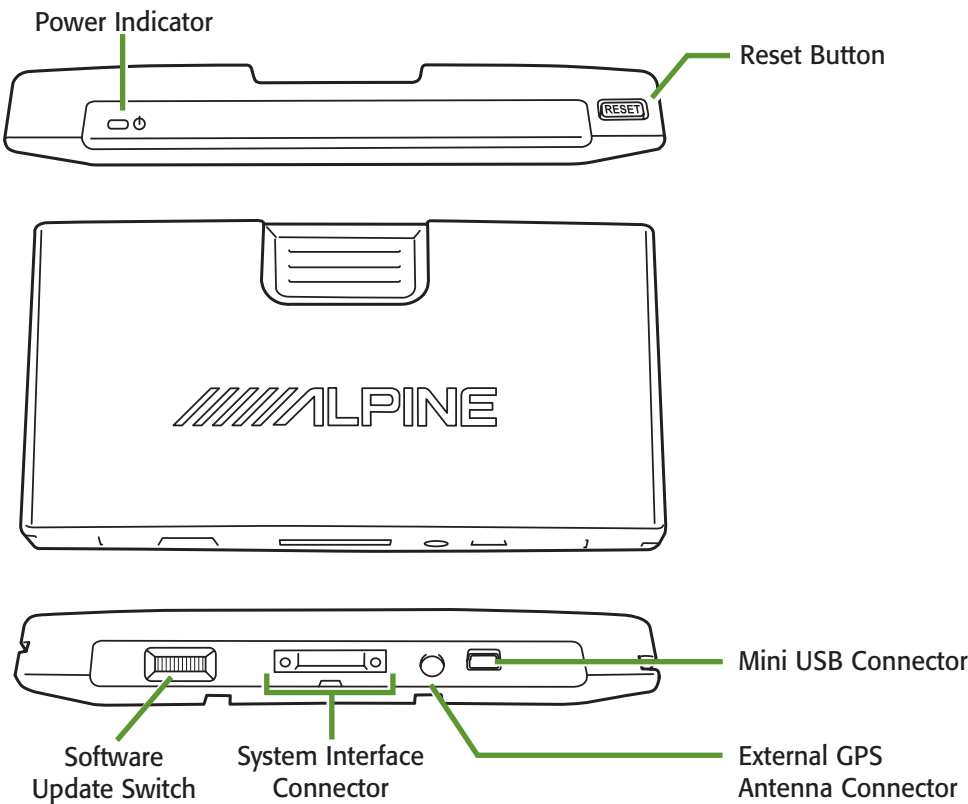

Quick Reference Guide
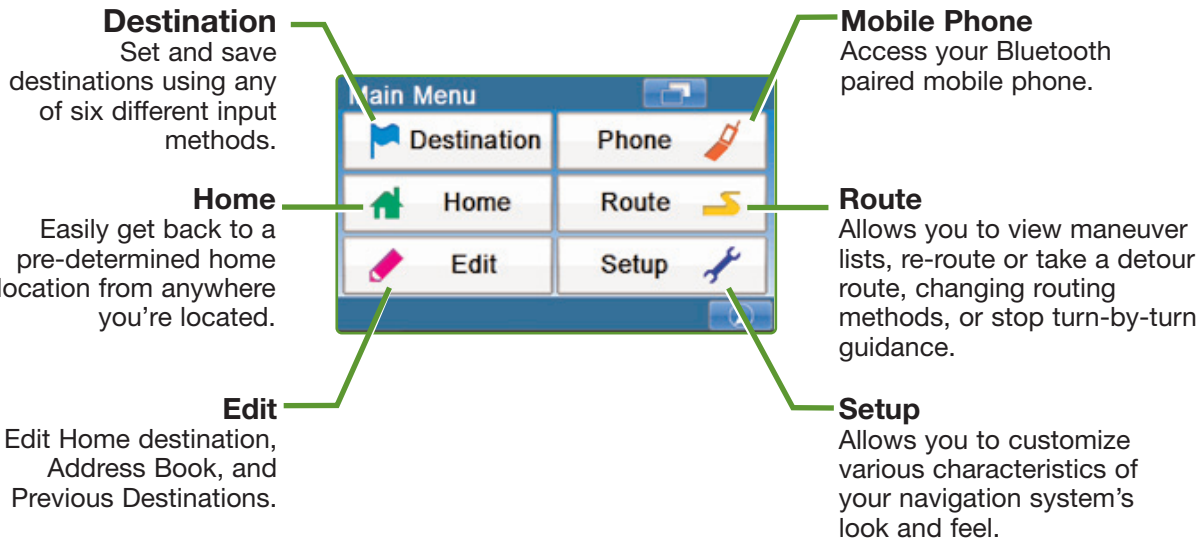

NVE-P1

//////ALPINE®
Mobile Media Solutions

■ Docking NVE-P1 to MMS (IVA-W203 and IVA-W505)

❶ Press Open button of 2 DIN MMS face and touch **Open** on the screen.

❷ Insert NVE-P1 into the unit with Alpine logo facing up (reset button on the right).

❸ Press firmly into place.

❹ Touch **Close** on the screen to close 2DIN MMS face.

❺ Select **Navigation** as a source.

■ Removing NVE-P1 from MMS (IVA-W203 and IVA-W505)

❶ Press Open button of 2 DIN MMS face and touch either **Open** or **Eject** on the screen.

❷ Press the eject button on the right side of 2 DIN MMS inside face.

❸ Remove NVE-P1 from 2DIN MMS.

MMS: Mobile Multimedia Station

■ NVE-P1

Removable Navigation Drive, NVE-P1

- Power Indicator
- Reset Button
- Mini USB Connector
- Software Update Switch
- System Interface Connector
- External GPS Antenna Connector

■ Map Functions

Below is an overview of different buttons and icons on the map display.
For more detailed information about this screen, please see the owner's manual.

- Next Street Name
- MMS Access Button
- Next Maneuver Arrow
- Distance to next maneuver
- Main Menu Button
- Estimated Time Remaining (ETR) / Estimated Time of Arrival (ETA)
- Direction to Destination
- Map Scale Bar
- Map Orientation
- Current Position Icon and Map / Split / Arrow Button
- Voice Prompt Repeat Button
- Current Street Name
- Bluetooth Status Icon
- GPS Status bar

■ Main Menu

From the Map or any screen, touch the Main Menu to access the following menus:

Destination
Set and save destinations using any of six different input methods.

Home
Easily get back to a pre-determined home location from anywhere you're located.

Edit
Edit Home destination, Address Book, and Previous Destinations.

Mobile Phone
Access your Bluetooth paired mobile phone.

Route
Allows you to view maneuver lists, re-route or take a detour route, changing routing methods, or stop turn-by-turn guidance.

Setup
Allows you to customize various characteristics of your navigation system's look and feel.

■ Basic Operations

The following example briefly describes how to input a destination.
The Route button is grayed out if Home address or Destination have not been set. Car must be parked when using Edit and Setup feature.

❶ Touch **Main Menu**. Select **Destination** from Main Menu.

❷ Select a Destination input method. (In this example **Places** and **By POI Category** Type is selected.)

❸ Select desired place type. (**ATTRACTION** is selected.)

❹ Select the search method. (**Sort by POI Name** is selected.)

❺ Type in the POI Name. A list of matches may appear. Select desired destination.

❻ Select **OK to Proceed** to set the destination. Map is displayed. Follow the navigation.

---

■ Pairing Your Mobile Phone with Navigation Drive

❶ Go to Bluetooth Setup and turn on Bluetooth.

❷ Start Discover Mode.

❸ On your mobile phone, make sure Bluetooth is on, then search for Bluetooh devices.

❹ Select NVE-P1 name and enter the passkey shown on the Navigation screen.

❺ When your mobile phone is connected, the message, "Syncing phone..." appears momentarily, then the Bluetooth icon appears momentarily.

❻ When the address book is downloaded, the message, "Syncing phone data complete." appears momentarily.

IMPORTANT

To enable Bluetooth function on NVE-P1, Bluetooth setting on MMS (IVA-W203/IVA-W505) must be set to "NAV.".
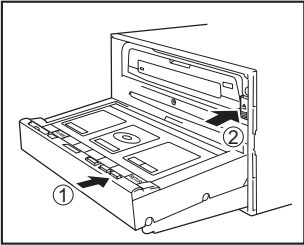

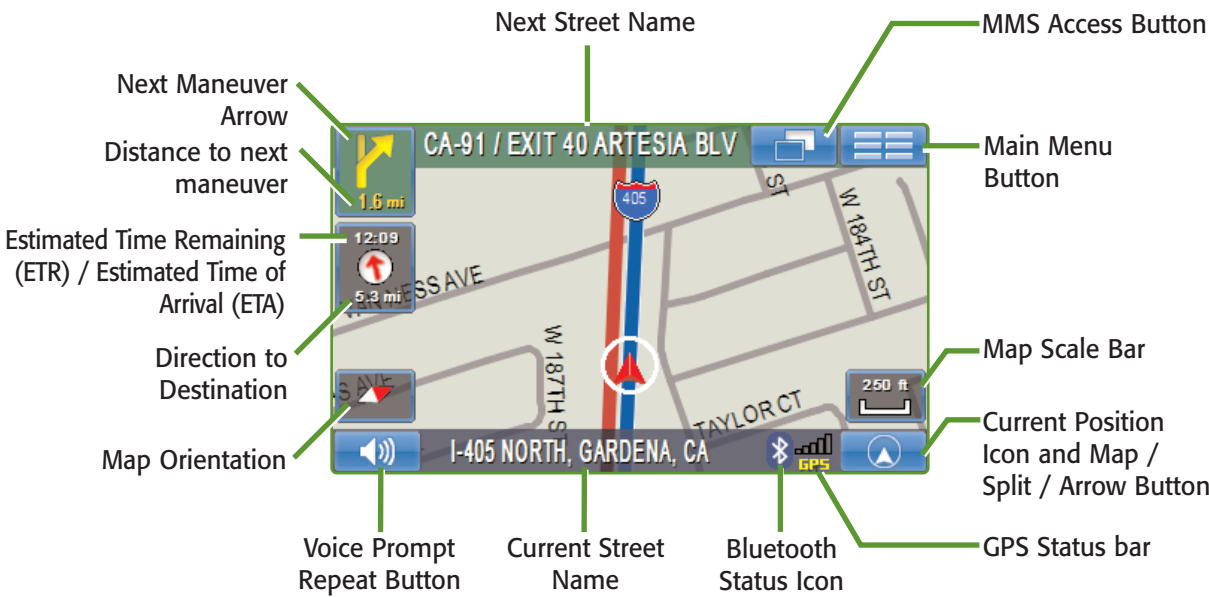

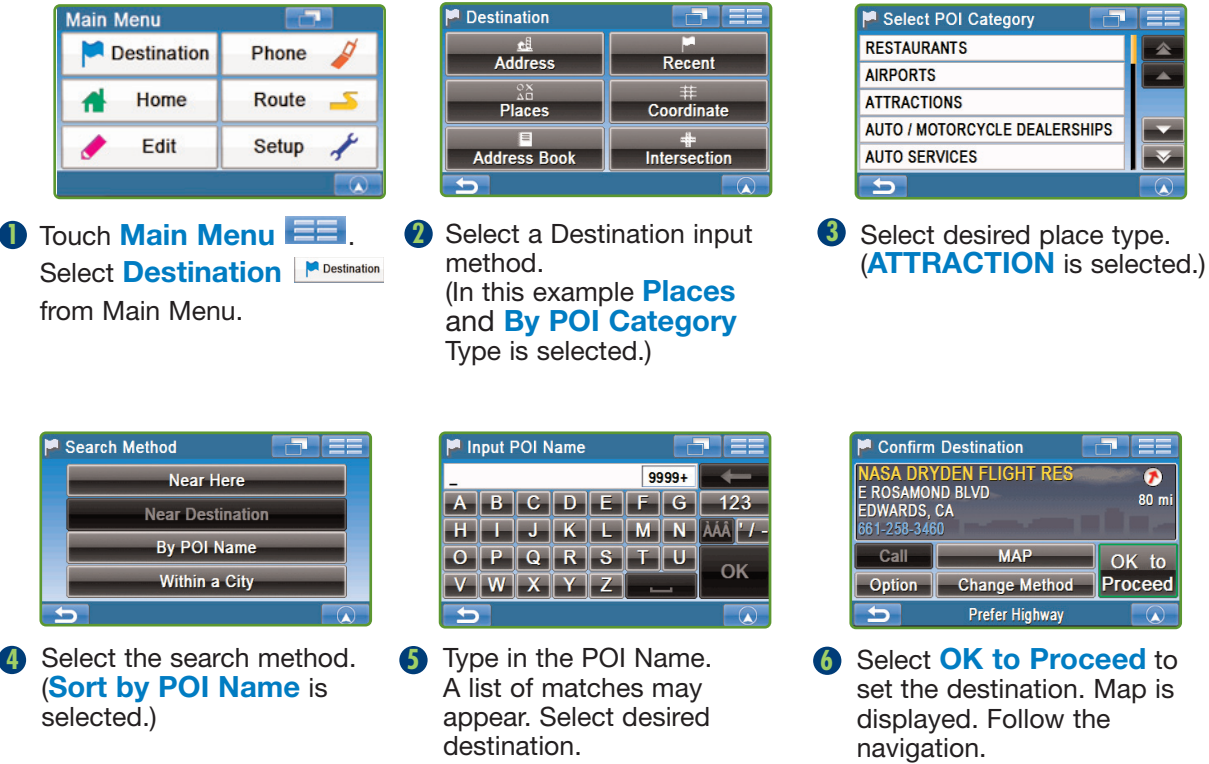

❶ Enable SETUP function on MMS by applying security brake sequence.

❷ **SETUP ➜ SYSTEM SETUP ➜ BLUETOOTH IN**

❸ Set to "NAV." (Default: OFF)

■ Placing Calls

❶ Touch **Main Menu**

❷ Touch **Phone**

Note: If Bluetooth is OFF, a message asking Bluetooth to be turned ON will appear on the screen.
After Bluetooth is ON, if your phone is not connected, the Bluetooth Discover Mode message will be displayed.

■ Receiving Calls

When your mobile phone is actively paired with NVE-P1, a pop-up window will appear when you have an incoming call. The caller ID number will be displayed when available. Touch **Answer** to accept the call or **Ignore** to ignore it.
