

**Feel Your Music**

# Our Company

Speakal.com (a wholly owned subsidiary of Lanchiya Technology USA) combines high quality design elements, state of the art technology and a unique sense of style to create high performance audio solutions for the everyday consumer. The company's flagship model, the iPig, was widely acclaimed at the 2007 Consumer Electronics Show and throughout the year in various well renowned publications and TV shows.

Speakal.com is the official and authorized dealer and sole distributor of LANCHIYA Technology. With over a decade of experience in the manufacturing and assembly of powerful Home entertainment speaker systems, Lanchiya's vision is to create smart, advanced, highly functional and widely compatible, fashionable and convenient digital speakers that brings a truly enjoyable experience to the end-user.

Our Speaker systems combine many desirable and unique elements from the visual appeal, the clarity of sound produced, the multi functionality of use blended with the latest in technology to ensure satisfaction and pride of ownership. Speakal.com is based in Los Angeles, CA. For more information, please visit [www.speakal.com](http://www.speakal.com)

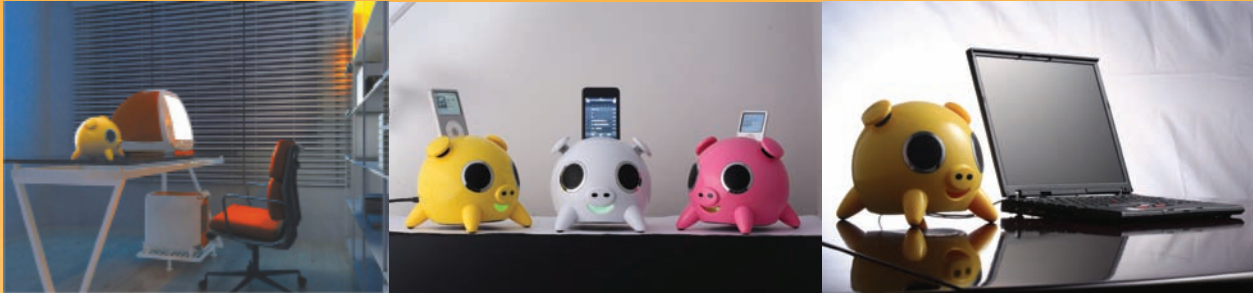

# The iPig

**Fashionable, Cute, Space Saver, Eco-Friendly, Powerful**

“With top sound quality and the cutest, catchiest design on the market, the iPig is sure to please the eyes and ears”

The new iPig is compact in size and packed with defining technology. It is not only an iPod docking station; it is THE speaker that will bring life and an awe-inspiring experience to your audio, video and gaming devices.

It includes patented Humanized Touch technology control to change the volume of the speakers.

The iPig comes in three different fashionable shiny colors to suit your taste and complements décor around it in your home, office, or dorm room. The iPig is the perfect music buddy for all occasions.

**Black iPig limited Edition!**

# The iPanda

**QUALITY, PERFORMANCE, COMPATIBILITY and STYLE**

Some call me “cat-foot” others call me “black and white” others “Giant Cat Bear”, just call me iPanda. I don’t have a rigid schedule; it all depends on my mood. I spend most of my time eating, kicking-back and playing with other animals like the iPig who is my music buddy.

My ears are also very special. If you gently place your fingers on my left ear, it will pump up the volume to bring the party on but if you place them on my right ear we can simply enjoy the sound of music while kicking back. It is a new cool technology that is exclusive to me and to my other music buddies.

As you also know, I live on the wild, I enjoy nature, I appreciate the environment where I live and that is why I am built from eco-friendly and green grade “A” materials.

# The **iBoo** PICK-AN-iBOO

You can now select from three different colors: Red, White or Blue, and enjoy listening to your music.

iBoo comes with multiple cradles to dock your iPod, charge it and listen to your music in a fun way. You can conveniently control the volume up or down through the use of the remote control or through the new humanized patented technology implemented in most of our Audio products. The iBoo is eco-friendly and comes with a 3.5 mm input jack to be used with the iPod shuffle, your computer terminal, or any other audio source to enhance your listening experience.

# THE iPom

## A SWEET DECORATIVE TOUCH

A touch of fashion with an attention to sound clarity and power. The new eco-friendly iPom speakers come in 3 different colors with expandable speakers that can be hooked directly to the iPom or placed as a satellite, and a built in subwoofer.

Bring a new look to any room or office with an astonishing sound and a Humanized touch control volume technology. The iPom comes with a remote control and a 3.5 mm output jack to enjoy the sound of your music.

# The iCrystal

Add a touch of romance to your home with our new iPod docking station that delivers a sensational look and sound- The Crystal. They come in three different colors to choose from to compliment your decorative style- Red, Black and White. You can choose to play any song by either touching gently the different control buttons or by navigating your iPod with the included remote control.

Speakal products are eco-friendly, fashionable and bring the newest in digital technology to your finger tips waiting for you. (Designed for your enjoyment)

# The **iExec**

**Shock yourself with the sound quality and elegant look of the iExec**
