SAFETY PRECAUTIONS

When using this appliance, always exercise basic safety precautions, including the following:

- 1) Use this appliance only for its intended purpose as described in this use and care guide.
- 2) This refrigerated cooler must be properly installed in accordance with the installation instructions before it is used. See grounding instructions in the installation section.
- 3) Never unplug your refrigerated cooler by pulling on the power cord. Always grasp the plug firmly and pull straight out from the outlet.
- 4) Repair or replace immediately, all electric service cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion damage along its length, the plug or the connector end.
- 5) Unplug your refrigerated cooler before cleaning or before making any repairs.
Note: If for any reason this product requires service, we strongly recommend that a certified technician performs the service.
- 6) Do not use any electrical device or any sharp instrument in defrosting your refrigerated cooler.
- 7) If your old refrigerated cooler is not being used, we recommend that you remove the doors and leave the shelves in place. This will reduce the possibility of danger to children.
- 8) After your refrigerated cooler is in operation, do not touch the cold surfaces in the refrigerated cooler compartment, particularly when hands are damp or wet. Skin may adhere to these extremely cold surfaces.
- 9) This refrigerated cooler should not be recessed or built-in an enclosed cabinet. It is designed for freestanding installation only.
- 10) Do not operate your refrigerated cooler in the presence of explosive fumes.
- 11) It is not recommended to store foods which must be kept at below 40° F for safe storage. This includes most dairy, meat and fish.

SAVE THESE INSTRUCTIONS

DANGER

Risk of child entrapment. Before you throw away your old refrigerated cooler or refrigerated cooler, take off the doors. Leave the shelves in place so that children may not easily climb inside.

Thank you for using our Haier product. This easy-to-use manual will guide you in getting the best use of your refrigerated cooler.

Remember to record the model and serial number. They are on a label in back of the refrigerated cooler.

Model number

Serial number

Date of purchase

Staple your receipt to your manual.

You will need it to obtain warranty service.

Parts and Features

1. Full Width Shelves
2. Air Circulation Fan
3. Temperature Control
4. Drain Reservoir

5. 1 Full and 1 Half Width Door Storage Shelves
6. Water Collection Pan (in the back)

Installing Your Refrigerated Cooler

Unpacking Your Refrigerated cooler

1. Remove all packaging material. This includes the foam base and all adhesive tape holding the refrigerated cooler accessories inside and outside.
2. Inspect and remove any remains of packing, tape or printed materials before powering on the refrigerated cooler.

Proper Air Circulation

- To assure your refrigerated cooler works at the maximum efficiency it was designed for, you should install it in a location where there is proper air circulation, plumbing and electrical connections.
- The following are recommended clearances around the refrigerated cooler:

Sides	2 "(50mm)
Top	2" (50mm)
Back	4" (100mm)

Electrical Requirements

- Make sure there is a suitable power Outlet (115 volts, 15 amps outlet) with proper grounding to power the refrigerated cooler.
- Avoid the use of three plug adapters or cutting off the third grounding in order to accommodate a two plug outlet. This is a dangerous practice since it provides no effective grounding for the refrigerated cooler and may result in shock hazard.

Use of Extension Cord

- Avoid the use of an extension cord because of potential safety hazards under certain conditions. If it is necessary to use an extension cord, use only a 3-wire extension cord that has a 3-blade grounding plug and a 3-slot outlet that will accept the plug. The marked rating of the extension cord must be equal to or greater than the electrical rating of the appliance.

Install Limitations

- Do not install your refrigerated cooler in any location not properly insulated or heated e.g. garage etc. Your refrigerated cooler was not designed to operate in temperature settings below 55° Fahrenheit.
- Select a suitable location for the refrigerated cooler on a hard even surface away from direct sunlight or heat source e.g. radiators, baseboard heaters, cooking appliances etc.
- Your refrigerated cooler was designed to operate at approximately 20° - 25° below room (ambient) temperature when set at maximum settings.

Door Alignment (see fig. #1)

1. Remove the top hinge cover by using a flathead screwdriver. Place the head under the front edge of the cap and gently lift.
2. Loosen the top hinge screws using a Phillips head screw driver.
3. Adjust the door or put a spacer in between and tighten the screws.
4. Replace the top hinge cover by aligning the rear of the cover with the rear of the hinge. Press firmly on the front of the cover until it snaps in place.

fig. 1

Refrigerated Cooler Features and Use

General Features

Your refrigerated cooler will automatically maintain the temperature level you select. The temperature control dial has 6 settings. The thermostat is divided into 6 levels min, med and max with a temperature setting in between each one. At first, set the dial to Max for 2 hours before adjusting the temperature to your needs.

Refrigerated cooler Interior Shelves

To remove or replace a full-width slide-out shelf: (see fig. # 2)

1. Gently tilt the shelf up and slide forward until the shelf has been completely removed.
2. To replace the shelf, gently slide the shelf back.

fig. 2

Proper Refrigerated Cooler Care and Cleaning

Cleaning and Maintenance

Warning: To avoid electric shock always unplug your refrigerated cooler before cleaning. Ignoring this warning may result in death or injury.

Caution: Before using cleaning products, always read and follow manufacturer's instructions and warnings to avoid personal injury or product damage.

General:

- Prepare a cleaning solution of 3-4 tablespoons of baking soda mixed with warm water. Use sponge or soft cloth, dampened with the cleaning solution, to wipe down your refrigerated cooler.
- Rinse with clean warm water and dry with a soft cloth.
- Do not use harsh chemicals, abrasives, ammonia, chlorine bleach, concentrated detergents, solvents or metal scouring pads. **SOME** of these chemicals may dissolve, damage and/or discolor your refrigerated cooler.

Door Gaskets:

- Clean door gaskets every three months according to general instructions. Gaskets must be kept clean and pliable to assure a proper seal.
- Petroleum jelly applied lightly on the hinge side of gaskets will keep the gasket pliable and assure a good seal.

Power Interruptions

- Occasionally there may be power interruptions due to thunderstorms or other causes. Remove the power cord from AC outlet when a power outage occurs. When power has been restored, replugin power cord to AC outlet.

Vacation and Moving Care

- For long vacations or absences, empty food from refrigerated cooler, move the temperature DIAL to the OFF position and clean the door gaskets according to "General cleaning" section. Prop doors open, so air can circulate inside.

Trouble Shooting

Refrigerated cooler does Not operate:

- Check if thermostat control is not in the "0" position.
- Check if refrigerated cooler is plugged in.
- Check if there is power at the ac outlet, by checking the circuit breaker.

Temperature appears too warm:

- Frequent door openings.
- Allow time for recently added warm food to reach fresh food temperature.
- Check gaskets for proper seal.
- Adjust temperature control to colder setting.

Temperature is too cold:

- If temperature control setting is too cold, adjust to a warmer setting and allow several hours for temperature to adjust.

Moisture build up on interior or exterior of the refrigerated cooler:

- This is normal during high humidity periods.
- Prolonged or frequent door openings.
- Check door gaskets for proper seal.

Refrigerated cooler has an odor:

- Interior needs cleaning.
- Foods improperly wrapped or sealed are giving off odors.

Refrigerated cooler door does not shut properly:

- Re-align refrigerated cooler door.
- Check for blockages e.g. food containers, crisper cover, shelves, bins etc...

Limited Warranty

What is covered and for how long?

This warranty covers all defects in workmanship or materials for a period of:

12 months for labor

12 months for parts (Functional Parts Only) Carry In

The warranty commences on the date of item purchase. Customer shall provide Haier with proof of the date of purchase, brand, model and serial number for verification prior to any warranty service being provided.

EXCEPTIONS: Commercial or Rental Use warranty

90 days for labor

90 days for parts

No other warranty applies

What is covered/Not covered?

1. The mechanical and electrical parts of the appliance which serve the functional purpose of this appliance are covered for a period of 12 months. This includes all parts except finish and trim.
2. The limited warranty does not cover any credit or refund for any loss or injury caused by the product or defects to the product including but not limited to incidental or consequential damages.

What will be done?

1. Any mechanical or electrical part that proves to be defective in normal usage during the specified warranty period will be repaired or replaced at Haier's discretion.

A&E factory service is the authorized service provider for Haier.

If it is determined that repair is not appropriate or replacement part is unavailable for repair, Haier will exchange the product with a refurbished or new product the same or similar to the original at its discretion.

2. There will be no charge to the purchaser for functional replacement parts and labor on any covered items during the initial 12-month period.

3. To have your product serviced, please contact Haier customer service
1-877-337-3639.

THIS WARRANTY COVERS APPLIANCES WITHIN THE CONTINENTAL UNITED STATES, PUERTO RICO AND CANADA. IT DOES NOT COVER THE FOLLOWING:

Damages from improper installation.
 Damages incurred during shipping.
 Defects other than manufacturing.
 Damage from misuse, abuse, accident, alteration, lack of proper care and maintenance or incorrect current or voltage.
 Damage from other than household use.
 Damage from service by other than an authorized dealer or service center.
 Decorative trims or replaceable light bulbs.
 Transportation and shipping.
 Labor (after the initial 12 months).
 Credit or Refund for products over 30 days past date of purchase
 Food loss for food spoiled as a direct result of mechanical failure of the product or of any delay in providing service, repair, replacement.
 This limited warranty doesn't apply to refurbished product or unit purchased as/like new or second-hand.
 THIS LIMITED WARRANTY IS GIVEN IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE

The remedy provided in this warranty is exclusive and is granted in lieu of all other remedies.

This warranty does not cover incidental or consequential damages, so the above limitations may not apply to you. Some states do not allow limitations on how long an implied warranty lasts, so the above limitations may not apply to you.

This warranty gives you specific legal rights, and you may have other rights, which vary from state to state.
