

VISION™

THE ESCIENT VISION...SEE IT

Store movies, music, and digital photos on the Vision™ and instantly enjoy them from any room of the home through an all-new high definition Escient User Interface.

Built from the ground up for today's digital home, the Escient Vision™ Series is comprised of three new products: an all in one server/player, an audio/video player, and a large capacity media server that provide the most sought after features for today's digitally connected home.

The all in one server/player, the VS model, comes in two versions, the VS-100 and VS-200. The VS-100 provides dual 500GB drives while the VS-200 provides dual 1TB drives, both feature reliable RAID 1 redundancy.

The VC-1 is the networked audio/video zone player, that can stream audio and video from Vision™ servers, allowing playback of music, movies, and photos from any room of the home.

The large capacity media server called the VX-600 features four 1TB drives in a RAID 5 configuration and provides unlimited storage expansion for Vision™ VS and VC devices. The VX-600 provides advanced early detection monitoring systems for reliable installations in any networked home.

Continuing Escient's unmatched excellence in integrating digital media management systems into state of the art audio/video systems, the Vision™ series supports the proven external control capabilities of Escient Fireball Media Management product line.

Set parental controls

VS-100 & VS-200 KEY FEATURES:

- Play DVDs and CDs
- Automatic Disc Recognition
- Import movies through the front panel drive
- Import videos through the front panel drive
- Import music through the front panel drive
- High Definition user interface
- Dual internal 500GB or 1TB hard drives
- Reliable RAID 1 data mirroring
- Stores digital video, audio, and photos on the internal hard drive
- External changer support for DVDs only
- Rhapsody unlimited music service
- Streams audio and video to Vision VC-1 networked clients or other VS(s)
- HDMI 1.3 In/Out
- Gigabit Ethernet
- External Control via Ethernet or RS-232 adapter
- USB Mouse and Keyboard support

BACK PANEL CONNECTIONS:

- IR Input
- HDMI In (x4)
- HDMI Out
- Component Video Out
- S-Video Out
- Composite Video Out
- Digital Optical Out
- Digital Coax Out
- Analog Audio Out
- Gigabit Ethernet
- USB (x2)

MINIMUM SYSTEM REQUIREMENTS:

- High Definition TV (recommended)
- A/V Receiver for surround sound
- Gigabit Ethernet network and switch

DIMENSIONS:

- 17.375" (W) x 11.875" (D) x 4.625" (H)

AUDIO FORMATS:

- ENCODE: MP3 | FLAC | WAV
- DECODE: MP3 | FLAC | AAC | WMA | WAV
- Dolby Digital | DTS

VIDEO FORMATS:

- MPEG-2 | MPEG-4

SUPPORTED CHANGERS:

- Sony DVP-CX777ES 400 disc DVD/CD (DVDs only) changers (requires Escient HDMI converter and RS-232 to USB adapter kit)

INCLUDED ACCESSORIES AND CABLES:

- Remote control | Power cable | Ethernet cable
- Vision User's Manual | Quick Setup Guide

VC-1 KEY FEATURES:

- Play DVDs and CDs
- Automatic Disc Recognition
- Import movies to VS and VX servers through the front panel drive
- Import videos to VS and VX servers through the front panel drive
- Import music to VS and VX servers through the front panel drive
- High Definition user interface
- Accesses digital video, audio, and photos from VS and VX servers
- Rhapsody unlimited music service
- HDMI 1.3
- Gigabit Ethernet
- External Control via Ethernet or RS-232 adapter
- USB Mouse and Keyboard support

BACK PANEL CONNECTIONS:

- IR Input
- HDMI In
- HDMI Out
- Component Video Out
- S-Video Out
- Composite Video Out
- Digital Optical Out
- Digital Coax Out
- Analog Audio Out
- Gigabit Ethernet
- USB (x2)

MINIMUM SYSTEM REQUIREMENTS:

- High Definition TV (recommended)
- A/V Receiver for surround sound
- Gigabit Ethernet network and switch

DIMENSIONS:

- 15.313" (W) x 13.25" (D) x 2.25" (H)

AUDIO FORMATS:

- ENCODE: MP3 | FLAC | WAV
- DECODE: MP3 | FLAC | AAC | WMA | WAV
- Dolby Digital | DTS

VIDEO FORMATS:

- MPEG-2 | MPEG-4

INCLUDED ACCESSORIES AND CABLES:

- Remote control | Power cable | Ethernet cable
- Vision User's Manual | Quick Setup Guide

VX-600 KEY FEATURES:

- Expandable network storage for digital video, audio, and photos
- Deliver multiple simultaneous audio and video streams to VS and VC clients
- 4 Terabytes of storage
- Gigabit Ethernet
- CIFS File Sharing
- Built-in rack mount ears
- Reliable RAID 5 data redundancy
- Hot swappable drives
- Built-in web interface for remote administration and monitoring
- EEDM - Escient Early Detection Monitoring

BACK PANEL CONNECTIONS:

- Gigabit Ethernet
- USB (x2)

MINIMUM SYSTEM REQUIREMENTS:

- Gigabit Ethernet network and switch
- VS-100, VS-200, or VC-1 for media playback
- High Definition TV (recommended)
- A/V Receiver for surround sound

DIMENSIONS:

- 18.1" (W) x 16.5" (D) x 1.8" (H)

INCLUDED ACCESSORIES AND CABLES:

- Ethernet cable | Power cord
