THE PERFECT MOBILE COMPANION

The Internet is at the center of modern life keeping you connected and informed through email, IMs, RSS feeds, social networking sites and Search. Keeping up often requires time shifting with companion devices like netbooks. Powered by energy-efficient Intel® Atom processors, the HP Mini 110 is optimized for Web access and can handle standard productivity apps - but is light enough to carry everywhere at just 2.89 lbs. Its LED anti-glare display reduces reflection that can distract from the visual experience, especially when used outside. The 92% of full-size keyboard enables much more efficient and comfortable use than texting (or typing on smartphone keyboards) for most. Windows 7® makes locating and connecting to hotspots easier and faster than ever.^(10b) The HP Mini 110 is the perfect device for staying productive, informed and in touch.

STAY IN SYNC

Integrated HP QuickSync enables the HP Mini 110 to sync files, photos and videos easily with your primary notebook or desktop PC whenever connected to the same network. After initial setup, the file updates will occur in the background for a truly seamless experience. File sync options can be modified easily any time. The HP Mini 110 makes it easy to take your recent photos and new favorite tracks with you.

FUN ON THE RUN

The HP Mini 110 keeps you entertained wherever you go.

- Stream video or playback files loaded from your primary PC with HP QuickSync, a USB drive or the internet.
- Let Pandora Internet Radio help you intelligently explore new stations and artists.
- Enjoy casual gaming by Wild Tangent online or off.
- Connect to a larger display via the VGA port to share with others.
- Chat and add fun special effects or record yourself with the webcam.⁽¹⁵⁾
