

rugged USB 3.0

DESIGN BY NEIL POULTON

SuperSpeed USB 3.0
Hi-Speed USB 2.0

The All-Terrain SuperSpeed Hard Disk

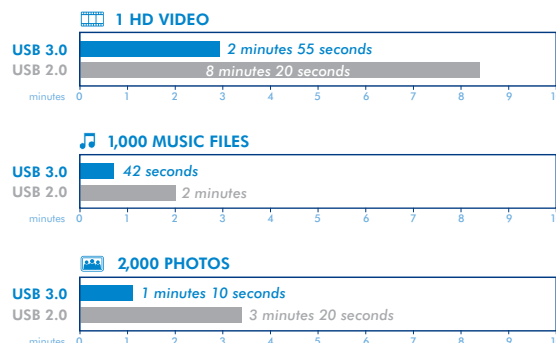

The Speed of USB 3.0

With the Rugged USB 3.0, now you can transfer your data with the fastest speeds available on the market. It features the SuperSpeed USB 3.0 interface, which is not only three times faster than USB 2.0 but requires only one cable to use. Your peripherals can be bus-powered, and you'll be able to transfer movies (even in HD!) faster than you ever thought possible. With its high-performance drive, up to 7200 rpm, and its compatibility with USB 2.0, it's the only mobile hard drive you need.

Portable, Rugged Protection

The Rugged is one of our most popular hard disks, and for good reason. It's the best way to protect your data, and the iconic design by Neil Poulton is one of the most established and recognized in the storage industry. With its rubber bumpers and shock-proof exterior, it helps you carry your files with confidence, no matter where the road takes you.

UP TO 3x FASTER**

1TB* = 67 HD videos or
1,420 MPEG-4 videos or
270,000 music files or
330,000 photos**

- Fastest interface on the market: speeds up to 110 MB/s
