### An Electric Grill that Cooks like a Gas Grill

The E Grill is a tabletop electric portable barbeque perfect for apartments, condos, and townhomes. Powered by electricity the E Grill is cheap to run, easy to use and convenient. With its lightweight and portable nature the E Grill is great for camping trips and vacations. The E Grill uses crossray® technology, a revolutionary technique that provides a completely uniform cooking surface. The infrared heat penetrates food and seals in moisture. It cooks with the Intensity of charcoal but with the convenience of electricity – and without food-blackening flare-ups. Crossray® is simply a better, faster and more energy-efficient way to grill and the E Grill is the smallest, most convenient Crossray® Grill.

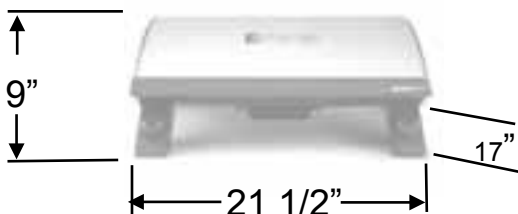

Take your E Grill in and Out or Keep it Outside on the Convenient, Lightweight Docking Station (folds away for easy storage).

Our Newest Innovation: An Electric Grill that cooks like a Gas Grill! Portability = a must for the Mid-Westerner.

- Lightweight and Portable
- 430 Grade Stainless Steel & Aluminized Steel
- Includes Instant Read Thermometer
- Includes PVC Cover
- Built in 2 Hour Safety Timer
- Maximum Temperature up to 680 degrees

Model	Description	MAP
HEG09A	E Grill w/cover	\$199
359550	Docking Station	\$69.99

The E Grill crossray® system offers high heat output using infrared tube elements and reflectors. The infrared system emulates the sun's rays, where heat is transferred and absorbed by an object without physical contact. With this system the infrared heat penetrates food more thoroughly resulting in more even cooking and longer heat retention.

Dimensions	21 1/2" (W) x 17" (D) x 9" (H)
Number of Main Burners	2 - 750 Watts
Infrared Sear Burner	No
Infrared Rear Burner	No
Total Power	1,500 Watts
Burner Type	Halogen Tube Burners
Total Cooking Area	220 sq. in.
Cooking Grate Material	Porcelain Coated Cast Iron
Heat Reflector Material	430 Stainless Steel
Frame Material	Aluminized Steel
Hood Material	Insulated Aluminized
Timer	2 - Hour Safety
Maximum Temperature	680° F
Temperature Gauge	Portable Instant Read
Power	120 Volt Input
Cover	Included
All dimensions, features and pricing subject to change
