### Works with FireBall Manager products for streaming music around the home.

The Escient FireBall line provides the best way to manage your entire music collection. The FireBall MP-100 connects to FireBall Managers via the home network for multi-room, multi-user capabilities.

- Stream and instantly access MP3 music and Internet radio stations from a FireBall, FireBall E-40 or E-120 Digital Music Manager
- Everyone gets their own, independent graphical interface to all MP3s and Internet radio stations
- Connect up to 4 FireBall MP-100s to one FireBall Manager for 5 simultaneous independent users
- Built in 10/100BaseT Ethernet

### The best user interface around.

Escient is known for providing the most intuitive user interfaces for entertainment management on the planet. The FireBall MP-100 takes the interface to a whole new level.

- Onscreen TV interface for cataloging, managing and selecting music
- Sort and select MP3 music by artist, cover art, genre, album title, song, playlist, favorites and more
- Sort and select supplied Internet radio stations by genre
- Edit your MP3 music library and playlists from the onscreen interface
- Read biographies, influences, similar music and purchase new CDs/DVDs

### FireBall plays well with others.

The FireBall MP-100 player integrates with a variety of home control systems, remotes and peripheral products.

- MP-100 has two RS-232 ports for a combination of external control systems and touch panels
- Control systems "talk" to the MP-100 directly via full, bi-directional communication protocol
- Compatible with AMX, Crestron, Niles, Philips Pronto, Sonance and more (IR, TCP/IP and RS-232)

## Key Features:

- Compatible with FireBall, FireBall E-40, and FireBall E-120 Digital Music Manager models
- Get the enhanced entertainment experience. Read about artist's influences, biographies, similar music and purchase new music
- Software updates and upgrades downloaded over the Internet connection
- S/PDIF and Toslink Optical Digital output, VGA, S-Video, Composite outputs, NTSC or PAL

## ONE CONFIGURATION EXAMPLE

FireBall is compliant with legal guidelines for music recording. CD media that can be used for recording is either CD-Ra or CD-RWs. CD-R and CD-RWs cannot be used. Broadband is recommended for connection. ISP may be used. Please note: some free ISPs don't use standard, consistent methods of Internet connectivity and don't open networks to outside users. Call for recommendations.

Escient reserves the right to change product hardware, features and software without notice. Upon any change, materials are updated as quickly as possible, but may not be reflected in documents already distributed. Supported hardware is updated continually. If you wish to interface with hardware that is not listed on this data sheet, please call Escient at 800.372.4368.
