

22LG31

LCD HDTV

22" Class (22.0" diagonal)

- 720p HD Resolution
- 5,000:1 Dynamic Contrast Ratio
- HDMI™ 1.3
- AV Mode (Cinema, Sports, Game)
- Clear Voice
- Invisible Speaker System
- Expert Mode
- PC Input

HD RESOLUTION

High definition television is the highest performance segment of the DTV system used in the US. It's a wide screen, high-resolution video image, coupled with multi-channel, compact-disc-quality sound.

AV MODE

LG HDTVs include 3 AV Modes, preset to optimize picture and sound settings based on "Cinema", "Sports" or "Game" content. AV Modes can be easily set with a convenient button on the remote control.

CLEAR VOICE TECHNOLOGY

Automatically enhances and amplifies the sound of human voice frequency range to provide high-quality dialogue when background noise swells.

INVISIBLE SPEAKER

LG's 2008 line of TVs include a unique invisible speaker system, tuned by renowned audio expert, Mr. Mark Levinson. Speakers are embedded in strategic spots behind the front cabinet and use minute vibrations to turn the entire front bezel into the speaker system. The result is a clean, polished look, and enhanced audio by increasing the "sweet spot", giving a wider and richer sound field.

EXPERT MODE

Sophisticated and detailed calibrations can be made through the easily accessible Expert Mode. (Up to 25 more fine adjustment points than typical TVs) This allows the user to optimize the picture quality, based on the viewing environment, lighting conditions or type of content.
