

- Front auxiliary input: Sony® has made it easier than ever to connect almost any portable audio device to your car system. One little cable is all it takes to listen to your iPod®, portable music player, or portable DVD player through your Sony Marine system (cable sold separately). No need to mess around with FM modulators to listen to your MP3 player in the boat. The auxiliary input is built right into the face of the head unit. All you need to do is plug and play.
- MP3/WMA Playback¹: Play CDs, CD-Rs, and CD-RWs, including discs loaded with MP3s and WMA files.
- UV Resistant front panel coating protects faceplate helps prevent discoloration from the sun.
- Conformal coating circuit board to protect the electronic assembly from damage due to contamination, salt spray, moisture, fungus, dust and corrosion caused by harsh or extreme environments.
- Satellite Radio ready³: The Satellite Radio ready head unit integrates seamlessly with satellite radio Sony® Bus adapters (sold separately) so you can receive digital satellite radio broadcasts.
- HD Radio® ready⁴: HD Radio ready capability lets you receive digital audio broadcasts when used with an optional HD Radio tuner.
- iPod® Control ready²: The optional XA-120IP allows users to connect, charge, and control your compatible iPod device directly from the radio.
- 3x preouts: The Sony Marine CDX-M30 includes three preouts so you can boost your boat's sound system with minimal effort and maximum flexibility. Use the preouts to add a subwoofer and external amplifiers, or another audio component, to your Xplod system.
- 52W x 4 High Power: The Sony Marine CDX-M30 delivers 52 watts of peak power to all four speakers for bass-pumping sound.
- The included Wireless Card Remote allows users to control the basic functions of your Sony® Marine system while keeping your eyes on the water.
- Built-in LPF (Low Pass Filter): Take advantage of the switchable Low Pass Filter with front, rear and sub outputs.

1. Not all MP3, WMA, AAC files may playback due to file variations. Copyright protected ACC-LC files cannot be played back.

2. iPod® connectivity requires optional adaptor (XA-120IP).

3. Satellite radio service requires a satellite radio tuner and service subscription, sold separately.

4. HD Radio® capability requires an optional HD Radio tuner (XT-100HD).
