

**Engineered to amaze. Designed to perform.**

Inspired by art and infused with the latest technologies, the HP ENVY 14 is designed to meet your high standards in sophisticated style. It's one of the smallest, lightest performance notebooks on the market today—just 1.1" thin and starting at only 5.25 pounds.<sup>(12)</sup> With Beats Audio™ that runs on HP-designed (and exclusive) sound technology, it delivers the best audio through line-out available on a PC today. Crafted from premium-grade materials, the HP ENVY 14 delivers world-class performance without compromise.

**Windows®. Life without Walls™.**  
HP recommends Windows 7.

**All Jet. No Lag.**

The latest Intel® processors combined with advanced graphics, accelerate games, videos, and other applications for astounding entertainment and impressive productivity. Experience high-definition video conferencing with the built-in HP TrueVision HD Webcam<sup>(15)</sup> that automatically adjusts for indoor settings. Digital dual-array microphone provides clear audio and reduces noise interference.

- Experience blazingly fast graphics with immersive multiple display support when plugged in and optimal battery life when not. ATI Mobility Radeon™ HD 5650 switchable graphics with 1GB dedicated DDR3 video memory dynamically switches to shared graphics when running on battery power to give you the best of both worlds.
- Work faster on multiple applications at the same time with the Intel® Core™ i5<sup>(5)</sup> processor with 4-way Multi-Task Processing that allows each core to work on two tasks simultaneously. When your PC needs extra performance, the new Intel® Turbo Boost Technology<sup>(3b)</sup> automatically speeds up your processor.
- Push your visual experience to the limit with an edge-to-edge flush display.
- Sync and print wirelessly with Bluetooth® -enabled smart phones and printers up to 30 feet away.<sup>(10)</sup>
- Work more easily in dim-light environments with the backlit keyboard.
- Get up to 6 hours and 30 minutes of run time with the 8-cell 59Whr Li-Ion battery.<sup>(28)</sup>

**Inspiring design.**

A laser-etched aluminum finish covers a lightweight but strong magnesium alloy chassis to project amazing style. A brilliant 14.5" Diagonal High-Definition<sup>(6)</sup> HP BrightView Infinity LED display provides full-screen views of HD content through clean, edge-to-edge glass. Subtle but significant refinements elevate the user's experience. Adjust sound, brightness, and other settings with a single touch. The island-style keyboard responds smoothly and lights up for use in the dark. And a generously-sized, multi-touch gesture-enabled HP Clickpad helps you navigate quickly and intuitively.

**Hear all the music.**

The HP ENVY 14 delivers the best audio experience through external speakers and headphones available on a PC. Beats Audio™, backed by HP-engineered sound technology, lets you experience music the way the artist intended you to by delivering it in its original form without the distortions and dropped notes typical in digital playback. It offers crystal-clear sound with deep controlled bass that can be accessed with a single keystroke: [fn]+b. Its powerful audio profile is tuned by HP specifically for the ENVY's exceptional audio components and tested by Interscope Records' artists, including Dr. Dre and Will.i.am. Available exclusively from HP.

**A better experience.**

The HP ENVY 14 goes the extra mile with features like an enhanced Windows® 7<sup>(1)</sup> experience that eliminates pop-ups due to trialware. Express your creativity with the included full-version Adobe® photo and video editing software. Should you need help, a special support phone number is available to reach dedicated agents who can help you troubleshoot problems and provide next-day shipping if needed. From its distinctive packaging to all its finely crafted details, the HP ENVY 14 delivers the experience you deserve.

**Relax with 24/7 Support.**

Enjoy the lifetime use of HP Support Assistant to keep your PC up to date, troubleshoot problems, and get assistance when you need help. While your PC is within Warranty, HP Care Pack Support gives you access to complimentary help whichever way you prefer:<sup>(32)</sup>

- **From your desktop:** Click the HP Support Assistant icon for quick access to automated maintenance, preinstalled content, diagnostic tools, and multiple assistance options.
- **Through the Internet:** Visit our Consumer Support Forum, available 24/7 in English, French or Spanish at [www.hp.com/support/consumer-forum](http://www.hp.com/support/consumer-forum). In the US, go to [www.hp.com/go/notebookcare](http://www.hp.com/go/notebookcare).
- **By telephone:** In the U.S., call HP at 1.800.HP.INVENT (1.800.474.6836).

To continue complimentary access to support, you can extend your Standard Warranty with an HP Care Pack service. Visit [www.hp.com/go/totalcare](http://www.hp.com/go/totalcare) for your choice of plans. Business Week ranked HP the number one technology company for customer service (April 2009).

If your PC is out-of-warranty, you can use the self-help assistance options of HP Support Assistant to help you find an answer or solve your problem. One option is to visit the Consumer Support Forum ([www.hp.com/support/consumer-forum](http://www.hp.com/support/consumer-forum)) at no charge. You can also call 1.800.HP.INVENT (1.800.474.6836) within the U.S. (Support charges will apply.)

<sup>(2a)</sup> 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See [www.intel.com/info/em64t](http://www.intel.com/info/em64t) for more information. Dual Core is designed to improve performance of certain software products. Check with the software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology. <sup>(3)</sup> Intel's numbering is not a measurement of higher performance. <sup>(3b)</sup> Intel® Turbo Boost technology requires a PC with a processor with Intel Turbo Boost capability. Intel Turbo Boost performance varies depending on hardware, software and overall system configuration. See [www.intel.com/technology/turboboost](http://www.intel.com/technology/turboboost) for more information. <sup>(4)</sup> GHz refers to internal clock speed of the processor. Other factors besides clock speed may impact system and application performance. <sup>(6a)</sup> Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 GB Double Sided - Version 1.0 media. <sup>(7)</sup> 1 GB = 1 billion bytes. Actual formatted capacity is less. Up to 20GB of system disk is reserved for system recovery software. <sup>(8)</sup> High-definition (HD) content required to view high definition images. <sup>(9)</sup> Actual speeds may vary. <sup>(10)</sup> Bluetooth is a trademark owned by its Company under license. <sup>(10b)</sup> Wireless access point and Internet service required and is not included. Availability of public wireless access points limited. <sup>(12)</sup> Weight will vary by configuration. <sup>(15)</sup> Internet access required and sold separately. <sup>(17a)</sup> Digital Meghridia Slot supports MS, MSP, MMC, SD, XD formats. To avoid damaging the card or computer do not insert any type of adapter, or mini format memory card, into the Digital Media Slot. Mini/Reduced flash memory cards require separately purchased adapter. <sup>(28)</sup> Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage.
