LG Optical Drive

THE SUPER MULTI BLUE ADVANTAGE

Multi Blue Compatibility

LG Super Multi Blue optical drives can read and write four types of disc formats in one convenient package:
1. DVD-R
2. RW DVD-R
3. RW DVD-RAM
4. BluRay Disc

This gives you the option to choose the media best suited for each task.

BluRay

Blu-ray Disc is the next generation in optical storage, offering 25GB and 50GB of storage capacity on a disc.

LightScribe Technology

LightScribe gives you the ability to create customized labels that are etched directly onto a special coated LightScribe disc (sold separately).

Silent Play

As a disc is being read, Silent Play technology automatically controls the disc read speed for optimal noise reduction.

Jamless Play

A damaged disc can cause interruptions during movie playback. Jamless play technology automatically skips past damaged parts of a disc to maintain smooth playback while reducing interruptions.
