## Is it a monitor? Or something better?

The M2280D is an almighty monitor that provides the total entertainment package. The Full HD LED LCD Monitor TV has a sophisticated slim design and supports HD digital broadcasting. It also features the Quick View HD Play function that makes it possible to play media files via its USB port, without ever turning on the PC.

You won't believe your eyes. Tired of dark scenes or dull colors? LG's LED technology delivers amazing clarity and color detail as well as a more energy efficient monitor compared to conventional monitors.

MPEG4 based digital TV tuner, the standard format of digital TV broadcasting, supports viewing of high resolution HDTV without requiring a separate receiver.

This stunning picture is the reason you wanted HDTV in the first place. With almost double the pixel resolution, Full HD 1080p gives it superior picture quality over standard HDTV. You'll see details and colors like never before.
