

## KX-TG4132M/N

### Expandable Digital Cordless Answering System with 2 Handsets

- DECT 6.0 Plus Technology
- Talking Caller ID<sup>1,2,3</sup>
- Intelligent Eco Mode
- Tone Equalizer
- Message Counter on Base
- Call Block<sup>1,5</sup>
- Silent Mode
- Amber Backlit LCD on Handset
- Non-Slip Handset Design
- All-Digital Answering System
- Ringer ID<sup>1,2</sup>
- Up to 4-Way Conference Capability
- Expandable to 6 Handsets
- Lighted Handset Keypad
- Light-up Indicator with Ringer/Charge Alert

# KX-TG4132M/N

## Expandable Digital Cordless Answering System with 2 Handsets

### DECT 6.0 Plus Technology [Exclusive Feature]

DECT 6.0 PLUS takes the superb sound quality and outstanding range of DECT 6.0 phones to a whole new level. By increasing the frequency of error correction up to 80x, the transmission quality is improved and the phone's range is extended. Whether you use them in the bedroom, the basement or the backyard, our cordless phones with DECT 6.0 PLUS Technology truly go the distance!

### Intelligent Eco Mode [Exclusive Feature]

This clever new feature automatically lowers the power consumption when you're using the handset close to the base unit. Not only does it extend the available talk time, it's good for the environment. When less power is used by the handset to communicate with the base unit, battery life is prolonged which results in less frequent charging and can result in fewer batteries in landfills.

### Talking Caller ID

Now you can hear who's calling from across the room without having to get up. Using text-to-speech technology, Panasonic phones featuring Talking Caller ID announce caller ID information in between rings. What could be more convenient?

### Tone Equalizer [Exclusive Feature]

Everyone hears differently. To maximize clarity or accommodate hearing loss, Panasonic added Tone Equalizer to select 2011 models. This exclusive feature actually lets you control the bass, mid-range or treble tones in a caller's voice for enhanced clarity.

### Call Block [Exclusive Feature]

Store the Caller ID info of any and all unwanted callers into your phone's Call Block list so that you can eliminate future pesky calls from them. After their information is stored, they'll get a busy signal if they call you again.
