This Model Uses
285kWh/year

Energy use (kWh/year) range of all similar models

The estimated annual energy consumption of this model was
not available at the time the range was published.

kWh/year (kilowatt-hours per year) is a measure of energy (electricity) use. Your utility company uses it to compute your bill. Only models with over 16.5 cubic feet and the above features are used in this scale.

**Refrigerators using more energy cost more to operate.
This model's estimated yearly operating cost is:**

\$26

Based on a 2005 U.S. Government national average cost of 9.06¢ per kWh for electricity. Your actual operating cost will vary depending on your local utility rates and your use of the product.

Important: Removal of this label before consumer purchase violates the Federal Trade Commission's Appliance Labeling Rule (16 C.F.R. Part 305).
