Parallels®
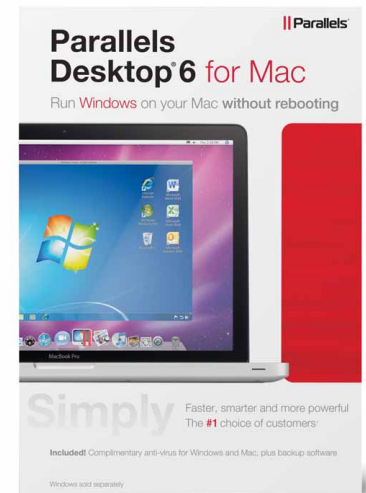

Parallels Desktop®6 for Mac

Simply

Simply the Faster, Smarter and More Powerful way to run Windows® applications on your Mac – **without rebooting**

It's Your Choice

Just because you need to work with PC programs doesn't mean you have to do it on a PC. Parallels, the company that originally gave users the flexibility to work any way they want, introduces Parallels Desktop® 6 for Mac, the most talked-about, award-winning way to seamlessly run Windows applications on a Mac.

Windows on Mac, Smarter

Run Windows programs seamlessly side-by-side with Mac applications; the possibilities are endless when you can drag-and-drop, and copy-and-paste between Windows and Mac, and use Mac OS X keyboard shortcuts in Windows applications. Now, it is simple to view and control Windows programs in Exposé and Spaces or launch the Windows Start menu right from the Dock.

It's a Big Deal

Parallels Desktop® 6 for Mac scores big with additions and enhancements that cover everything from enhanced 3D graphics to the smaller details, like making sure that you can enjoy full access and control of your Windows applications from wherever you are with an all new iPhone/iPad app. With over 80 new and improved features, including speed 40% above previous versions, it's never been simpler to run Windows applications on your Mac.
