

AUDIO/VIDEO CABINET IN DEEP ESPRESSO FINISHED WOOD

*T*his impressive audio/video cabinet offers versatility and functionality with a finely crafted elegant design. The cabinet top and base are beautifully accented with multi-level molding, raised panel doors and classic bun feet. With a 60" width, it can accommodate most TVs up to 65" or 150 lbs., while the center height adjustable and removable shelves will support at least three audio/video components. Two raised panel doors conceal the side compartments that also feature height adjustable and removable shelving to accommodate video game consoles and provide media storage. An integrated CMS® Cable Management System hides and routes wires and interconnect cables while internal slots provide proper air circulation for convection cooling of your components. The WAVS335 assembles in minutes with absolutely no tools required.
