

WÜSTHOF™

A Classic Comparison

CLASSIC

The edge on both Classic and Classic IKON is skillfully honed by hand. Incredibly sharp and easily maintained.

The blade on both Classic and Classic IKON is precision forged from one solid piece of steel. Tempered to the optimum 58° Rockwell.

Black logo, steel formula and city of origin screen printed on the blade...proud symbols of our guarantee of the finest quality.

Full bolster providing excellent heft, weight and balance.

Triple rivets on both Classic and Classic IKON permanently secure the handle to the full tang.

Comfortable handle with a traditional look and feel.

Stickered red logo.

CLASSIC IKON

Classic IKON has a continuous compound grind, tapered from the handle to the tip, and the spine to the edge.

The blade is ground thinner; therefore, there is less resistance.

Red logo, steel formula and city of origin screen printed on the blade...proud symbols of our guarantee of the finest quality.

Able to sharpen total blade to the heel, as well as full usage of the blade.

Refined rounded spine for comfort.

Precision bolster angled back towards the hand for exceptional comfort and control.

Contoured handle edges for ergonomic, comfortable fit and a more contemporary appearance.

Unique double bolster for perfect balance and heft. The logo is embedded on the end of the handle.
