

BDXTT

Table Top Bluetooth® Receiver

An easy,
wireless way to
integrate your
stereo Bluetooth
devices to any
audio system.

The BDXTT allows you to make a wireless connection between any A2DP Stereo Bluetooth® enabled audio source and any single or multi-zone audio system. This includes connecting products such as the Apple® iPad®, iPhone® or iPod touch® 2G, a large number of mobile phones, and personal computers. Integrate these audio sources into Xantech multi-zone audio systems using the MX88/MRC88 controller, Digital Delivery System (DDS), or any other audio amplifier or amplified speaker with RCA or 3.5mm stereo mini-phone inputs.

Features Include:

- Pairs with Stereo Bluetooth® A2DP devices
- Distance/Operating Range: up to 80ft
- Audio Output: Stereo 3.5mm

Accessories Include:

- Stereo 3.5mm mini-phone-to-RCA audio cable
- Stereo 3.5mm mini-phone audio cable
- 100V~240V universal power supply with region adaptor plugs

Order: BDXTT
