CHICAGOLAND'S #1 DESTINATION FOR ELECTRONICS & APPLIANCES

Abt Electronics began as a small radio store founded in 1936 by Jewel and David Abt. With an \$800 investment, it has turned into the largest family-owned, single-store consumer electronics and appliance retailer in the nation. Phenomenal growth in a tough business environment defines Abt Electronics. Their success is due to the family's strong commitment to marketplace ethics and impeccable customer service.

THE ATRIUM

The Atrium is comprised of 20,000 square feet, beautifully designed with inspiration from the famous Bellagio Hotel Las Vegas. The 11 separate boutiques are designed to give the perfect experience of what each has to offer our customers. They represent the quality that each brand wishes to convey while complementing the Atrium's own characteristics.

At the center of the Atrium is a water fountain created with custom tiles shipped directly from Italy. Dancing water jets are choreographed and pulsate to the sounds of classical music. Fresh flowers surround the fountain to provide it with the look and feel of a peaceful garden, making it an experience for everyone to enjoy.
