

KDL-60R520A

Sony® R520A Series Internet TV

Enter a world of dazzling picture quality and unlimited entertainment. This elegantly slim LED TV boasts Full HD 1080p for incredible detail and Edge LED backlighting for boosted contrast. Internet connectivity is at your fingertips, so you can watch YouTubeTM clips and access online HD movies, music and more.

Bullets

- Edge LED backlight for a bright picture & thin design
- Lifelike movement with Motionflow™ XR 240
- Receiver-less TV for DirecTV customers²
- Movies, music & apps w/ Sony Entertainment Network
- Stream HD entertainment wirelessly with built-in Wi-Fi[®]
- Your smartphone's screen on TV w/ wireless mirroring¹
- Crisp detail & contrast w/ Clear Resolution Enhancer
- Smartphone ready TV that's made for your smartphone³

Features

So bright and so thin.

Powerful yet thin LEDs deliver a radically brighter picture than conventional LCD backlighting. They also help achieve an ultra-slim TV design that looks beautiful in your home. What's more, Sony's Edge LED Backlight technology delivers outstanding contrast, rich colors and enhanced dark-scene detail.

Lifelike motion.

Watch the football retain its detail during a kickoff and move smoothly as the camera follows it from left to right. Even quick motion seen in action movies appears amazingly realistic as Motionflow™ XR 240 technology, which takes motion clarity beyond refresh rates, smoothes out the picture where the camera can't for clearer and more natural movement.

Receiver-less TV

For DIRECTV customers with a Genie™ Whole-Home HD DVR, the Sony R520A series allows you to enjoy full DIRECTV service and HD DVR functionality without an additional receiver. Place the Genie™ Whole-Home HD DVR in any room of the house and enjoy the clean look of your big screen on the wall without the clutter of connecting a DIRECTV receiver to it².

Go beyond cable with Internet TV

Welcome to the endless entertainment of the Sony Entertainment Network, where thousands of movies, TV shows, online videos, games and music are always at your fingertips. By connecting to the Internet and touching the `SEN' button the TV remote, you can access Full HD 1080p entertainment, and made-for-TV apps like Netflix®, Pandora®, YouTube™, Facebook® and more.

Goodbye wires, hello Wi-Fi®.

Maximize your entertainment while reducing cable clutter. Wirelessly stream beautiful, HD entertainment straight from the internet or your home network using built-in Wi-Fi® connectivity.

Your smartphone, now on TV

Movies, music and apps from your smartphone can now be viewed big on your TV. With two ways to connect Android phones and tablets to the R520A, Sony is helping you add value to the entertainment you already own.

- 1. Using a Mobile High Definition Link cable, you can connect your smartphone to the TV to literally "mirror" what's seen on the smartphone screen. Video, photos and apps are re-sized and scaled to fit the larger TV screen. You can then use the TV remote to navigate the phone, while it's charging from the TV³.
- Using screen mirroring technology, you can connect phones that are Miracast™ enabled to the TV¹.

Clearly different.

Fine details and textures appear in whatever you're watching, even in flat areas. Powered by Sony's advanced noise reduction algorithm, this technology boosts image clarity with heightened contrast and depth that you won't find on most televisions.

Against the grain.

Dazzle the whole family with ultra-crisp HD clarity and less grain. Digital Noise Reduction enhances detail in whatever you're watching with meticulous processing. It even helps clean up video from USB and other PC sources so the picture looks pristine and vivid.
