75 Series	28 5/32" H x 22 15/16" W
75 Stainless Series	29 13/32" H x 22 15/16" W
29 Series	21 13/32" H x 19 13/16" W
15 Series	28 5/32" H x 13 15/16" W
15 Stainless Series	29 13/32" H x 13 15/16" W

Zero clearance on black and white models with a flush/flat door panel.

Door will accept a raised panel. Allow proper clearance, on hinge side when installing a raised panel. Amount of clearance will depend on raised panel thickness.

The maximum panel thickness when inserted into the door reveal (channel) is 1/4" thick.

For raised panels, on black and white models, the depth of the reveal is 1/4" on both sides and bottom and 1/2" on top.

For raised panels, on stainless steel models, the depth of the reveal is 1/4" on both sides, top and bottom.

Allow 9/16" clearance on hinge side for all stainless steel models with flush/flat panel. Additional clearance maybe needed, on hinge side when installing a raised panel. Amount of clearance will depend on raised panel thickness.

Panel not to exceed 20 pounds.

Conversion information: 1 inch = 2.54 cm
