BDX3500

Streaming Media & Universal Disc Player

(Blu-ray Disc™, DVD, & Audio CD)

Preliminary Version

Short Product Marketing Description & Top Features

Toshiba's Symbio™ Streaming Media and Universal Disc Player is a Blu-ray Disc™ player, DVD player, CD player and streaming media box all in one. Enjoy your favorite Blu-ray™ and DVD movies in Full HD 1080p or access the variety of content with key media Apps including Netflix®, YouTube®, VUDU® Movies and TV, and more for expanded entertainment. The BDX3500 offers advanced media box features such as an enhanced easy-to-use ePortal interface to access your apps, an open browser with bookmarks to surf the web, and new Smart TV Alliance App capability that ensures ongoing app library expansion. Equipped with built-in Wi-Fi® and Miracast™, the BDX3500 lets you share content from one device to another without cables or a connecting to a wireless home network. Amazingly the BDX3500 packs all this technology and entertainment into a small, compact square design that fits in anywhere.

7.9" x 7.9" x 1.9"
- Unit Weight: 1.7 lbs.
- Package Size (WxDxH):
11.1" x 9.3" x 4.7"
- Package Weight: 2.5 lbs
- ENERGY STAR®
- Color: Black

UPC: 022265585573

Country of Origin: China

What's in the box

- Symbio™ Streaming Media
and Universal Disc Player
- AC Power Adapter
- Quick Start Guide & Warranty
- Remote with Batteries (2xAAA)

1. While every effort has been made at the time of publication to ensure the accuracy of the information provided herein, product specifications, configurations, system/component/options availability are subject to change without notice. 2. 1080p/24 fps encoded content and an HD display capable of accepting a 1080p/24Hz signal required for viewing 1080p/24 fps content. 3. Miracast peer to peer connectivity requires connection with Miracast certified devices. Although your Symbio™ Streaming Media and Universal Disc Player is certified, connection and compatibility issues between other Miracast certified devices may still exist. 4. Use of HDMI® CEC requires an HDMI® CEC compatible display/peripheral device. Depending on the specifications of your device, some or all HDMI® CEC functions may not work even if your display/peripheral device is HDMI® CEC compatible. 5. Subject to app availability. 6. BD Live™ requires connection of a USB drive of at least 1GB (sold separately) to USB port. For models without built-in Wi-Fi®, BD Live™ is only supported via Ethernet; so when using single USB port for Internet access, BD Live will not be available. Performance of interactive features may vary due to disc design or content, and may also require an always-on broadband Internet connection. Firmware update may be required for some interactive features. Some features may require additional bandwidth. Internet services are available only in the United States.
