We wrote the book on quiet. The next chapter is flexibility.

Bosch Dishwashers

The quietest dishwasher brand¹ in the U.S. offers a third rack for more capacity and flexibility.

¹ Based on an average of sound ratings on major brands’ websites. Major brands defined as Traqline Top 10 Brands, September 2013.
Best-in-Class Quiet

Bosch looks at noise reduction from every angle, incorporating 18 unique sound-reducing technologies. And as the quietest line of dishwashers in the U.S., all Bosch quiet levels are certified by an independent lab.

What’s a decibel?
Noise is measured in decibels (dBA). A three decibel increase is the sound power equivalent of running two dishwashers at once.

Quietest Dishwasher Brand* in North America
Our 800 Plus model is the quietest model in North America, running at only 38 dBA.**

Multiple Insulation Layers
Multiple layers of sound-absorbing insulation. Coated stainless steel, baked on bitumen, and cotton fiber dampen noise.

EcoSilence™ Motor System
Two small brushless motors instead of a single large one reduce friction and work more efficiently. Motors are held by a rubber suspender to absorb vibration. Drain pump detects when water is drained and stops motor immediately to minimize snorkeling noise.

Solid Molded Base
Solid molded base absorbs sound while minimizing vibration.

Triple-filtration System
Grindless system filters out food particles, eliminating the need for a loud food disposal.

Understanding Decibels

Detergent Tray
Optimized for tablets, this tray holds detergent in place for a dedicated spray jet to directly dissolve tablet and minimize spraying the door. (Note: dishwasher also works with powder and gel.)

Spray Arm
Spray arms project water directly towards dishes, reducing noise.

InfoLight®/TimeLight®
So quiet, we’ve added a light to let you know a cycle is running.

* Based on an average of sound ratings contained in major brand’s websites. Major brands defined as TraQline Top 10 brands. September 2013.

** Based on sound ratings in the normal cycle, per IEC 60704-2-3 Standards, May 2013.
Precisely Designed

Bosch designers believe that form must always be balanced with function. Whether it’s a new way to load your silverware and bulky items, or a seamless look with cabinets through our ultra-flush installation, our commitment to purposeful design is clear.

RackMatic®
Adjust the upper rack in just one step, even when loaded. Adjusts to three different heights and allows for up to 9 rack positions for ultimate loading flexibility.

Ergonomic Design
Control panels designed for perfect visibility without having to lean down.

Self-Latching Door
Door holds firm at any position and automatically shuts at less than 20°.

Design choices:
Four designs for every taste.

Interior Light
A bright white interior light adds an aesthetic accent in the kitchen and makes loading easier in dim lighting.

Flush Installation
Our full size tub can be installed perfectly flush to cabinetry.

Design Highlights

Pocket Handle
Our new pocket handle design offers a clean look that integrates seamlessly into your kitchen without a handle obtruding from the fascia. Available in stainless steel, black and white.

800 Series Design Upgrade
Upgrade to a 800 Series recessed handle or bar handle design for a fully wrapped stainless steel fascia panel* with a capacitive touch control. On the 800 Series recessed handle, upgrade to a sleek debossed logo.

New Black and White Designs
Our classic black and white models step up their design with chrome enhancements available on 300 Series and up.

TFT Display
Check cycle status in high definition color and receive maintenance information such as when to refill rinse aid.

New Third Rack

What goes in a third rack? Anything you want. Bakers love the space for measuring cups and beaters. Chefs love the space for whisks and ramekins. Parents love the space for plastic containers. And some people use it instead of their silverware basket, claiming extra space for dishes down below. At Bosch, we’ve engineered our third rack to fit to your life and give you up to 30% more loading area*. 

1. Expandable wings allow for loading more deep items.
2. Adjustable tines allow for more customized space based upon the size of awkward, bulky items.
3. Unique v-shape of our third rack allows for easy loading of extra tall stemware in the middle rack.
4. The center of our V-shaped rack provides the perfect space for large utensils or ramekins.
5. Using the lower position of RackMatic®, our middle rack can load two rows of highball glasses or measuring cups, even with the third rack.

Flexible Third Rack

Standard Third Rack

Whatever You Have, We Can Hold

16 Place Settings

Our racks fit 16 full place settings including a dinner plate, salad plate, bowl, mug and 16 5-piece sets of cutlery.

Everyday Loads

Because a lot more goes in dishwashers than dishes, our racks are designed to fit mixed loads of pots, pans and dishes, allowing you to clean up after dinner without any hand washing.

Silverware Basket

The Duo-Flex removable silverware basket can be placed anywhere in the dishwasher, offering ultimate flexibility.

*Compared to a Bosch dishwasher with two racks.
Exacting quality

Our roots in German engineering are part of what make Bosch unique. Every part of our manufacturing process reflects meticulous thought and optimization. No gadgets. No gizmos. We’re committed to offering straightforward technologies that improve daily life. In fact, no one has fewer repairs than Bosch.*

Follow the quality of our products from the factory to a customer’s home.

**Thoughtful Engineering**

Every part of our dishwashers reflect our high engineering standards.

**Water Softener**

Water softener removes hard water spots caused by lime deposits and softens water to the appropriate level for superior washing results.

**SpeedPerfect™**

SpeedPerfect delivers up to 25% faster cleaning with excellent results.

**ActiveWater®**

Technology that utilizes design, water pressure and efficiency to circulate 2.5 gallons of water into the cleaning power of more than 600 gallons. Available on all models.

**Stainless Steel Tub**

We start with high quality stainless steel that comes with a lifetime warranty against tub rust through.

**Dishwasher Filter**

Our filter’s corrugated shape, inspired by automotive filters, offers greater surface area for more complete filtration.

**Half Load Option**

This option can be used when washing small, lightly soiled loads that fill half or less of the dishwasher’s capacity.

**Quality Materials**

At our factories, assuring quality means a lot more than checking off a box.

**Testing**

Not just good, but great. Every dishwasher must pass 485 rigorous quality checks before leaving our factory.

**Water-Tested**

As the brand that runs every dishwasher with water before shipping, we have to ensure that our units successfully run prior to getting to your home. Water spots in your brand new Bosch are proof that your unit passed the test!

**Exacting Quality**

**24/7 AquaStop®**

AquaStop® is a precisely engineered tub and sensor system with a solid molded base to contain leaks. If a leak has occurred, it shuts down operation and automatically pumps out water to avoid contact with the floor. Now it even works 24/7 and can turn itself on.

**Concealed Heating Element**

Our concealed water heater prevents plastic items on the bottom rack from melting and protects against accidental burns.

**Awards**

When we talk about German Engineering, we’re talking about our commitment to producing the world’s best products. That’s why Bosch dishwashers are the most awarded dishwasher brand worldwide*. You don’t reach this achievement without being obsessed with the details. Over 100 engineers work under the strictest standards of German Engineering to make sure you have the best appliance in your home.

**Best Value**

Best value by a leading consumer publication**.

**ENERGY STAR® Partner of the Year**

ENERGY STAR® Sustained Excellence Award Recipient.

*According to a leading consumer publication.

**Based on a leading consumer publication, June 2012.

### Water Softener

Our water softener removes hard water spots caused by lime deposits and softens water to the appropriate level for superior washing results. (SGZ9091UC)

### Anti-tarnish Silverware Cassette

This specially designed cassette provides the best wash results and protection for your fine silverware. (SMZ5002UC)

### Dishwasher Accessory Kit

This all-in-one bundle includes the Extra Tall Item sprinkler, vase/bottle holder, three plastic item clips and a small-item basket. (SMZ5000)

---

SMZPC002UC (Power cord)

This power cord kit can be used when installation does not require hard wiring.
