

DREAM IN BLACK™

Beautyrest
BLACK

Sleep is the Ultimate Luxury™

In today's over-worked, multi-tasking world of 24/7 access to information and distraction, sleep has become the ultimate luxury, an elusive elixir that many crave, yet few capture.

What if you could transform your everyday sleep experience into the extraordinary? A Beautyrest Black® mattress allows you to Dream in Black™, a transformative experience where daylight ends and luxurious sleep begins.

A close-up, black and white photograph of a coiled spring, likely a pocketed coil, showing the intricate twisting and looping of the metal wire. The focus is sharp on the foreground coil, with others blurred in the background.

LUXURY MEETS TECHNOLOGY™

The latest advancements in Pocketed Coil® Technology, memory foam and high performance fabrics come together to create a luxurious and rejuvenating sleep that can only be experienced with a Beautyrest Black® mattress.

Advanced Pocketed Coil® Technology

Found only in Beautyrest Black®, our Advanced Pocketed Coil® Technology helps deliver exceptional conforming back support and pressure relief. Select models also include a layer of Micro Pocketed Coil® springs for enhanced comfort and support.

Sleep Climate™ Surface Technology and Luxurious Fabric

Our newest temperature management technology resides in the quilt and can only be found in Beautyrest Black.® Just below the fabric lies a patent-pending layer of vertically oriented TENCEL® fibers designed to dissipate body heat helping to keep you cool and comfortable.

Our elegant fabric of modal yarn is finished with an exclusive phase change material that works to keep you cool in warm conditions and warm in cool conditions. This seamless integration of high performance technologies and luxurious materials helps your body to maintain an ideal sleeping temperature throughout the night.

Micro Diamond™ Infused AirCool® Memory Foam

With Beautyrest Black®, we have incorporated luxury with the benefit of temperature management by infusing diamond particles into our AirCool® Memory Foam. The step up models in the Beautyrest Black® line utilize the conductive properties of our Micro Diamond™ Infused AirCool® Memory Foam helping to move heat away from the body assisting in a cool, comfortable sleep. Other applications that utilize a diamond's very high thermal conductivity can be found in electronics and semiconductors, where diamonds transfer heat away from sensitive circuitry.

TEMPERATURE MANAGEMENT

Sleep Climate™ Surface Technology

This patent-pending layer of vertically oriented TENCEL® fibers located just beneath the fabric is designed to dissipate body heat away from the sleeping surface.

Luxurious Fabric

Elegant modal yarn is finished with an exclusive phase change material designed to help your body maintain an ideal sleeping temperature throughout the night.

COMFORT AND PRESSURE RELIEF

GelTouch® Foam

A soft gel foam that provides soothing comfort with exceptional surface contouring and conformability.

AirCool® Memory Foam

Relieves disruptive pressure points by conforming to your body's position, while enhancing freedom of movement. Its open-cell structure delivers high air flow helping to keep you comfortable during sleep.

CONFORMING BACK SUPPORT

Advanced Pocketed Coil® Technology

Helps deliver exceptional conforming back support and pressure relief.

Dynamic Response™ Memory Foam

Works in concert with the Advanced Pocketed Coil® Technology to create our most conforming back support.

ADDITIONAL FEATURES

Ventilated AirCool® BeautyEdge® Foam Encasement
Compatible with Renew & Renew+ Powerbase
25 Year Limited Warranty
