The supplied Sound calibration microphone stand is convenient for use when performing Speaker Calibration. Using your own tripod or the supplied Sound calibration microphone stand enables settings to be automatically configured to the optimum listening environment, providing exceptionally high performance.
Important: External Antennas

The removable external antennas are required for both Bluetooth and Wireless network connectivity. Please make sure to connect the antennas before attempting to use the Bluetooth or Wi-Fi features of the AVR-X5200W.

Connecting the external antennas for Bluetooth/Wireless connectivity

For each of the two antennas:

1) Place the antenna evenly over the antenna terminal located at the upper left or right corner of the rear panel.
2) Turn the antenna clockwise until it is fully connected. Do not over tighten.
3) Rotate the antenna upwards for the best possible reception.
Setup

There are three steps to the setup process.

1. Installing batteries in the remote control unit
2. Connecting the receiver
3. Following the On-Screen Setup Assistant
