

## Go (Eco-Friendly) Green for St. Patty's Day with 9 Spectacular Energy Efficient Products from Abt

This St. Patrick's Day ditch the Kelly green and go Eco-Friendly green. Grab a (green) beer and get a head-start on Earth Day with the help of [Abt Electronics and Appliances](#), **the nation's largest single-store retailer of electronics and appliances**. Check out [Abt.com](#) for these (and more) energy and money saving products to keep you in that green spirit all year 'round:

- [MaxLite LED 10W A-Lamp Bulbs](#) (Reg. \$18/Sale \$14.99) – Did you know an ENERGY STAR certified light bulb uses about 70 to 90 percent less energy and lasts 10-25 times longer?
- [Belkin WeMo Switches](#) (\$50) & [Belkin WeMo Insight Switch](#) (\$60) – These smartphone controllable switches will help you control, monitor your lights, and save money. It costs almost \$20 a year to leave one light on for 8 hours a day.
- [Panamax Power360 8-Outlet Power Strip](#) (\$79.95) – It is estimated that standby power accounts for more than \$11 billion in annual U.S. energy costs. Plugging electronics into a powerstrip provides a convenient 'turn-on/turn-off' point, so you can be sure your products are only on when you are using them.
- [Samsung 19" Black LED 720P HDTV](#) (Reg. \$229.99/Sale \$138.99) & [Samsung Simple LED 24" LCD Computer Monitor](#) (Reg. \$199/Sale \$147.99) – If all TVs sold in the U.S. were certified models, greenhouse gas savings would grow to 1.5 billion pounds per year.
- [Nest Learning Thermostat](#) (\$249) & [ecobee ecobee3 Smart Wi-Fi Thermostat](#) (\$249) –With proper use, programmable thermostats can save about \$180 every year in energy costs.
- [Frigidaire Air Conditioner](#) (\$499) – ENERGY STAR certified room air conditioners use about 10% less energy than standard models and, on average, cost less than \$70 per year to run.
