SAFETY PRECAUTION

* CAUTION MARKING WAS LOCATED AT THE REAR OF THE APPARATUS.

**WARNING:** TO REDUCE THE RISK OF ELECTRIC SHOCK. DO NOT REMOVE COVER (OR BACK) NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

**DANGER OF EXPLOSION IF BATTERY IS INCORRECTLY REPLACED. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE.**

**USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.**

**WARNING:**

- TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.
- TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE. DO NOT PLACE OBJECTS FILLED WITH LIQUIDS ON OR NEAR THIS UNIT.
- SHOULD ANY TROUBLE OCCUR, DISCONNECT THE AC POWER CORD AND REFER SERVICING TO A QUALIFIED TECHNICIAN.

**Placement Information**

- Do not use this unit in places that are extremely hot, cold, dusty or humid.
- Do not restrict the airflow of this unit by placing it somewhere with poor airflow, by covering it with a cloth, by placing it on bedding or carpeting.

**Safety Information**

- When connecting or disconnecting the AC power cord, grip the plug and not the cord itself. Pulling the cord may damage it and create a hazard.
- When you are not going to use the unit for a long period of time, disconnect the AC power cord.

**Rating Plate Location**

The rating plate is located on the rear of the unit.

**FCC Statements**

NOTE: This unit has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This unit generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this unit does cause harmful interference to radio or television reception, which can be determined by turning the unit off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the unit and receiver.
- Connect the unit into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the unit.

“HDMI, the HDMI logo and High-Definition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC.”
1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with a dry cloth.
7) Do not block any ventilation openings.
   Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug.
   A polarized plug has two blades with one wider than the other.
   A grounding type plug has two blades and a third grounding prong.
   The wide blade or the third prong is provided for your safety.
   If the provided plug does not fit into your wall outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments / accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
    When a cart is used, use caution when moving the cart / apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as the power cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15) To prevent electric shock, ensure the grounding pin on the AC cord power plug is securely connected.
ACCESSORIES

Please check and identify the supplied accessories.

- Remote control ................................................................. x 1
- Battery (AAA) ................................................................. x 2
- Warranty Card ............................................................... x 1
- Instruction Manual .......................................................... x 1
- 2 Base stands and 4 base stand screws ................................. x 1
- Mini Line Out Cable .......................................................... x 1

GETTING STARTED

USING THE REMOTE CONTROL
- Point the remote control at the remote sensor located on the unit.
- When there is a strong ambient light source, the performance of the infrared remote sensor may be degraded, causing unreliable operation.
- The recommended effective distance for remote operation is about 16 feet (5 meters).

TO INSTALL THE BATTERIES
1. Open the battery door. 2. Insert 2 "AAA" batteries.

BATTERY REPLACEMENT
When the batteries become weak, the operating distance of the remote control is greatly reduced and you will need to replace the batteries.

⚠️ CAUTION : Danger of explosion if battery is incorrectly replaced.

NOTES
- If the remote control is not going to be used for a long time, remove the batteries to avoid damage caused by battery leakage corrosion.
- Do not mix old and new batteries. Do not mix ALKALINE, standard (CARBON-ZINC) or rechargeable (NICKEL-CADMIUM) batteries.
- Always remove batteries as soon as they become weak.
- Weak batteries can leak and severely damage the remote control.

⚠️ WARNING : Do not dispose batteries in a fire. Batteries may explode or leak. Batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
REMOTE CONTROL

1. STANDBY
   To switch on the TV or make the TV into standby mode.

2. MUTE
   Press this button to mute or restore sound.

3. 0-9
   Allows you to change the channel of the TV.

4. 
   Switches back and forth between the current and previous channels.

5. P.MODE
   Press this button to select a picture mode for different picture qualities.

6. S.MODE
   Press this button to select sound setting for different sound effects.

7. MTS
   To change among STEREO, MONO and SAP. If there is no second language available for the signal received, LED Display audio will output to mono.

8. SLEEP
   To select the amount of time before your TV turns Off automatically.

9. SOURCE
   Press this button to select an input source.

10. CH+/CH-
    Skips to the next/previous channel on TV mode.

11. INFO
    Show the information of the program you are watching.

12. VOL+/VOL-
    Increases/Decreases the Volume control.

13. CC
    Press the button to enter into the CC mode.

14. EPG
    Press this button to select the electronic programme guide in DTV mode.

15. CH.LIST
    Press this button to display the channel list.

16. AUTO
    Press this button to autoadjust the screen in PC mode.

17. UP/DOWN/LEFT/RIGHT
    Moves the cursor upward/downward/to the left/to the right when making a selection.

18. ENTER
    Press to confirm selections on a menu screen.

19. MENU
    Displays the OSD Menu of the TV.

20. Exit
    Press this button to exit the on screen display.

21. ADD/DEL
    Press to increase/decrease your favourite program.

22. FAV
    Press this button to show the favourite list.

23. FAV+/FAV-
    Press this button to go through the FAV channel list.

Universal remote code
This is the code for remote control of PLDED5515-B-UHD. if you want to change to a universal remote control, you can edit this code into your universal remote control.

Universal Remote Code: 1218
( Universal Remote Control is not included. )
FRONT VIEW

1. Color Screen
2. Remote Sensor
   Do not block this sensor or the remote control will not work.
3. Standby Indicator
   Indicates whether the unit is ON or in STANDBY (OFF) mode.
   Light in red: The unit is in STANDBY.
   Light in blue: The unit is turned ON.
4. Speakers

BACK VIEW

1. Power Cord
2. Optical Out Jack
3. AV IN Jack
4. COMPONENT IN Jack
5. Line Out Jack
6. HDMI IN Jacks
7. TV ANTENNA Terminal
8. Service Port
1. **VOL+ Button**
   This button increases the TV's volume. If a sub-menu is active, pressing this button will move the select right.

2. **VOL- Button**
   This button decreases the TV's volume. If a sub-menu is active, pressing this button will move the selection left.

3. **CH+ Button**
   This button changes the TV channel up. If the OSD is active, this button functions as up for the menu.

4. **CH- Button**
   This button changes the TV channel down. If the OSD is active, this button functions as down for the menu.

5. **Menu Button**
   This button activates the On Screen Display (OSD). If a sub-menu is active, pressing this button will exit the OSD.

6. **SOURCE Button**
   Press to select the input source of the TV.

7. **STANDBY Button**
   Turn on the TV by pressing the button once. Press the button again to turn off the TV.
CONNECTIONS

CONNECTING A TV ANTENNA / CABLE / SATELLITE
To view television channels correctly, a signal must be received from one of the following sources:
- An indoor or outdoor aerial antenna
- A cable system
- A satellite system

NOTE
For receiving over-the-air TV broadcasts, we recommend that you use an external fixed antenna. Should you require the use of a temporary antenna, please ensure that you purchase an antenna with sufficient ability to receive in weak signal areas. Only when you are in close proximity to a transmitter will a temporary antenna reproduce a signal as strongly as a fixed antenna.

CONNECTING AN A/V DEVICE
To connect to other equipment such as a VCR, camcorder, satellite system or cable, etc.

CONNECTING DEVICES WITH A COMPOSITE VIDEO OUTPUT
To connect A/V devices such as a VCR, video game system or camcorder.

Connecting to a VCR / Video Game System / Camcorder
Connect the AUDIO / VIDEO cable (not included) as shown. Make sure you connect the cable from the other equipment (AUDIO and VIDEO OUT) to this unit (AV in)

NOTE
1. Please refer to the user manual for the other equipment for more information.
2. Composite video input (shared with component)
CONNECTIONS

CONNECTING A HIGH-DEFINITION (HD) SOURCE USING COMPONENT CONNECTION

High-Definition (HD) Devices with component video output must be connected to the YPbPr input.
Connect the component video cable and audio cable (not included) as shown.
Make sure you connect the component video cable and audio cable from the other equipment (COMPONENT OUT and AUDIO OUT) to the unit COMPONENT IN.

NOTE
When connecting a DVD player to the television, the picture resolution is solely dependent upon the resolution supported by the DVD player attached.
DVD player resolutions vary from 480i to 1080i.
and this television can support DVD players up to a maximum resolution of 1080i.

* May require a subscription for receiving HD channels, check with your cable/satellite service provider for details.

CONNECTING A HIGH-DEFINITION (HD) SOURCE USING HDMI CONNECTION

HDMI (High Definition Multimedia Interface) supports both video and audio on a single digital connection for use with DVD players, DTV, set-top boxes and other digital AV devices. HDMI was developed to provide the technologies of High Bandwidth Digital Content Protection (HDCP) as well as Digital Visual Interface (DVI) in one specification. HDCP is used to protect digital content transmitted and received by DVI-compliant or HDMI-compliant displays.
HDMI has the capability to support standard, enhanced or high-definition video plus standard to multi-channel surround-sound audio. HDMI features include uncompressed digital video, a bandwidth of up to 2.2 gigabytes per second (with HDTV signals), one connector (instead of several cables and connectors), and communication between the AV source and AV devices such as DTVs.

Connect the HDMI cable (not included) as shown:
Make sure you connect the cable from the source equipment (HDMI OUT) to this unit (HDMI IN).
CONNECTIONS

CONNECTING THE POWER CORD
You can power on your TV unit before you make sure the power cord is inserted well. At the same time, please check that the rated voltage of your unit matches your local Voltage.

NOTE
• Insert the power plug fully into the socket outlet. (If the power plug is loose, it could generate heat and cause fire.)
• Ensure that the power plug is easily accessible.
• Ensure the earth pin on the power plug is securely connected to prevent electrical shock.
• Do not touch the power plug with a wet hand. (This may cause electrical shock)
• Do not use any power cord other than that provided with this TV. (This may cause fire or electrical shock.)
• Do not damage the power cord. (A damaged cord may cause fire or electrical shock.)
• Do not move the TV with the cord plugged in the socket outlet.
• Do not place a heavy object on the cord or place the cord near a high-temperature object.
• Do not twist the cord, bend it excessively, or stretch it.
• Do not pull on the cord. Hold onto the power plug body when disconnecting cord.
• Do not use a damaged power plug or socket outlet.
CONNECTIONS

Connection to a Home Theater Audio System

For BEST audio performance
Connecting to a Home Theater System
Dolby Digital can deliver optimal 2 channel stereo or surround sound with five discrete full range channels plus a sixth channel for a subwoofer.
Enjoy optimal sound reproduction from your system with a Dolby Digital amplifier that incorporates a digital optical input. Connect an optional digital cable directly to the television’s Optical audio output to listen through all inputs except VGA.
(The VGA does not support digital audio)

How To Setup Digital Output
Press the MENU button on the remote control
Press the right ► arrow button to select sound
Press the down ▼ arrow button to highlight SPDIF type right ► Raw or PCM

*NOTE: Refer to the User Manual from your home theater equipment for recommended audio settings.
WALL MOUNT INSTALLATION

INSTALLING / REMOVING THE BASE STAND

WARNING: The LED Display is very fragile, and must be protected at all times when removing the base Stand.

Be sure that no hard or sharp object or anything that could scratch or damage the LED display comes into contact with it. Do NOT exert pressure on the front of the unit at any time because the screen could crack.

1. Disconnect all cables or cords connected to the unit.
2. Lay the unit down on a flat surface with the back side facing down.
3. To remove the base stand, loosen screws off the holes then pull downwards to release the base stand.

MOUNTING ON THE WALL

This unit is VESA-compliant, and is designed to be wall-mounted with a VESA-compliant 16” x 8” (400 x 200 mm) mounting kit designed for flat-panel TVs (not supplied). Mount this unit according to the instructions included in the mounting kit.

Length of screw should not exceed 10 mm.

NOTE

Remove the base stand before mounting the unit on the wall.
INITIAL SETUP

PUTTING THE UNIT ON A PROPER PLACE

When you turn on your television set for the first time, be sure to place it on a solid stable surface.

To avoid danger, do not expose the TV to water, or a heat source (e.g. lamp, candle, radiator).

Do not obstruct the ventilation grid at the rear and be sure to leave sufficient gaps around the unit.

TURNING THE UNIT ON FOR THE FIRST TIME

After you have initially connected your TV antenna or cable, turn the television ON.

A screen will display asking you to run a **Channel Auto Scan** to search and receive available local digital channels.

It is here where you will select antenna options and run **Channel Auto Scan**.

Channels will be stored in the TV tuner.

Press the **MENU** button on the remote control. Using the ▲ or ▼ buttons, scroll to highlight channel mode. Press the ▼ button to highlight AIR/CABLE.

SOURCE SELECTION

1. Press the **SOURCE** button on the remote control.
2. Use the ▲ or ▼ button to select the options (TV, YPbPr/AV, HDMI1, HDMI2, HDMI3, HDMI4) and select any of them using the ▶ button or the **ENTER** button.
   (The screen will change to your desired source).

   **Note:** Before watching please make sure all necessary cables and devices are connected.
**INITIAL SETUP**

**HOME MODE SELECTION**

Home Mode (Energy Saving): Select Home Mode to maximize energy efficiency. Please note if you select Home Mode the picture will be darker. This mode meets the requirements of Energy Star® Qualification.

Retail Mode: Select Retail Mode if you would like your picture to be brighter. At times this mode may use more energy to operate the Volume/Sound Mode and the Picture Mode. In this setting, the power consumption may possibly exceed the limited requirement of Energy Star® Qualification.
TV SETUP

CHANNEL MENU

Press MENU button to display the main menu.
Press ◄ / ► button to select CHANNEL in the main menu, it will highlight the first option.

AIR / CABLE
This feature allows you to switch between air (such as using antenna) and cable.

AUTO SCAN
This feature searches channels automatically for you.

FAVORITE
This feature gives the favorite list of channels added by you.

CHANNEL LIST
This feature shows the list of stored channels.

SHOW / HIDE
This feature tells you if you have chosen for channel to be skipped.

CHANNEL NUMBER
This feature tells you what channel you are currently on.

CHANNEL LABEL
This feature changes the name of the channel.

Please Note:
The channel options are only available when you select TV as your SOURCE.
When you open the OSD menu on other sources (HDMI, YPbPr/AV) these options will be grayed out.
TV SETUP

PICTURE MENU
Press MENU button to display the main menu.
Press ◄ / ► button to select PICTURE in the main menu, it will highlight the first option.

PICTURE MODE
This feature changes various color modes for the TV.

BRIGHTNESS
This feature changes the picture's detail in dark colors.

CONTRAST
This feature changes the difference between dark and bright objects.

COLOR
This feature changes the amount of color in the picture.

TINT
This feature changes the white balance of the color.

SHARPNESS
This feature changes the picture quality.

COLOR TEMPERATURE
This feature adjusts the color temperature of the TV, giving warm, normal, cool.

ADVANCED SETTINGS
a) ASPECT RATIO This feature changes the various aspects of the TV's video.
   (Aspects include wide, zoom, cinema, normal).

b) NOISE REDUCTION This feature reduces general pixilation by blurring them.

c) DYNAMIC CONTRAST This feature allows the TV to automatically adjust the contrast of the TV depending on the picture you are viewing.
SOUND MENU
Press MENU button to display the main menu.
Press ◄ / ► button to select SOUND in the main menu, it will highlight the first option.

EQUALIZER SETTINGS
This feature enables the internal equalizer of the speakers. You can adjust the settings individually or use the presets.

MTS
This feature adjusts the second audio programming in analog channels.

AUDIO LANGUAGE
This feature adjusts the digital second audio programming in digital channels.

DIGITAL AUDIO OUTPUT
This feature adjusts the digital audio output.

SURROUND SOUND
This feature adjusts the dimensional surround effect on or off (for built-in speakers only).

AVL
This feature adjusts the auto volume leveler enabling volume protection from overly loud commercials.

Please Note:
AUDIO LANGUAGE and MTS are dependent on the broadcasting station’s support and are only available under the source TV.
TV SETUP

TIME MENU
Press MENU button to display the main menu.
Press ◄ / ► button to select TIME in the main menu, it will highlight the first option.

Press ◄ / ► button to select TIME in the main menu, it will highlight the first option.

SLEEP TIMER
This timer automatically turns off the TV at the designated time.

TIME ZONE
This option adjusts the global time zone for the TV.

DAYLIGHT SAVING TIME
This option toggles the daylight saving time feature.

TIME FORMAT
This option adjusts the display format for the time.

AUTO CLOCK
This option enables the TV to sync time with the antenna.
(Put it on AUTO if you have an antenna attached to the TV. If you have CABLE or SATELLITE or anything else please use make sure AUTO CLOCK is turned off)

CLOCK
This option adjusts the time and date of the TV. You need to disable AUTO CLOCK in order to use this function.

Please Note:
The TIME function will only keep accurate time if the TV is plugged into a power source. If the TV is unplugged or the power strip is turned off, the TV's time will not be accurate.
SETUP MENU

Press MENU button to display the main menu. Press ◄ / ► button to select SETUP in the main menu, it will highlight the first option.

**MENU LANGUAGE**
This option changes the language of the TV’s OSD menu.

**TRANSPARENT**
This option changes the transparency of the menu allowing background TV images to show through.

**OSD TIMEOUT**
This option changes the time which the TV’s OSD menu automatically goes off.

**CLOSED CAPTION**
This option displays words on the TV.

**INPUT LABEL**
This option changes the source names to your personal preference.

**OTHER SETTINGS**
This option adjusts miscellaneous options of the TV.

- AUDIO ONLY-This option turns off the screen while the audio is still playing.

**RESTORE DEFAULT**
This option reset all settings to factory default and restart the initial TV setup, All channel and user settings will be reset, except parental controls.

**SETUP WIZARD**
This option enables the TV to show you the setup wizard of the TV again.

Please Note:
Closed captioning is only available under AV and TV ports.
Closed captioning depends on your TV program’s support. Sometimes due to the TV channel or the signal, closed captioning will not be available.
In United States, closed captioning under analog signals is CC1.
In United States, closed captioning under digital signal is Service1.
LOCK MENU
Press MENU button to display the main menu. Press ◄ / ► button to select LOCK in the main menu, it will highlight the first option. Press “0000” for the lock password.

CHANGE PASSWORD
This option allows you to change the LOCK menu password.

SYSTEM LOCK
This option enables parental locking and filtering for the TV.

US RATING
This option filters US TV programming and movies.

CANADA RATING
This option filters CANADA TV ratings.

RRT SETTING
This feature is a downloadable rating filter based on TV broadcasts. With the transition of TV broadcasts to digital, future changes, and enhancements in how TV shows are rated for content are possible.

RESET RRT
This option resets the RRT5 settings.

Please Note:
Please refer to RATINGS EXPLAINED for more information on ratings definitions. Downloadable rating and clear downloadable data might be grayed out depending on the TV stations support. RRT5 options are based on TV broadcasts, if it is grayed out, then it is not available in your region.
