An infrared electric heater blending aesthetics and function

The Tungsten Smart-Heat™ Electric range brings high-performance radiant heating to open outdoor applications and semi-enclosed spaces alike. This heater’s extended body and parabolic specular reflector (PSR) provides a wide wall of heat across a vast footprint, maximizing the comfort created by each unit. Available in 4 models with heat outputs of up to 6kW, these units emit minimal light and present a scalable solution for those wishing to tailor heating systems specifically to the space serviced.

FEATURES

High-Performance Mesh Screen
The Tungsten’s unique front cover manipulates infrared energy to maximize performance while achieving a superior spread of heat.

Ultra-Durable Quartz Element
Translucent fused quartz houses a thick steel coil to create a high-output, durable element that emits a soft red glow.

Parabolic Specular Reflector (PSR)
A mirror-finish anodized rear reflector directs lost infrared energy back towards the target, maximizing performance and efficiency.

High-Temperature Coating
Attractive, corrosion-resistant black or white finish to suit any surrounding.

Easy Installation
Mount the included bracket and connect power to create comfort in no time.

Scalable Solution
Available in 2000W (2kW), 3000W (3kW), 4000W (4kW) and 6000W (6kW) models with the ability to adjust the output of individual elements.

Ultra-Durable Design
Stainless steel construction ensures reliable heating for years to come.

Precise Directional Heating
Accurately alter coverage through simple bracket adjustment.

Wireless Control Capabilities
Genuine wireless control accessories allow seamless integration of remote heating output adjustment.
