PRODUCT OVERVIEW

Axxess has added new interfaces that solve the issue of losing a vehicle's personalization menu. With the combined use of the steering wheel controls, the user will be able to change and edit the personalization menu. The menu will show up via the reverse option on the aftermarket screen. The interfacing will also provide accessory power, retain chimes, and retain the steering wheel controls.

- Radio Replacement/Menu Retention Interfaces
- Provides accessory power (12-volt 10-amp)
- Retains chimes (when provided by OEM)
- Provides NAV outputs (parking brake, reverse, mute and speed sense)
- Retains factory screen
- Can be used in non-amplified models
- Retains customization/personalization menus
- Retains climate control display when needed
- Retains steering wheel controls
- Micro "B" USB updatable

* Does not retain OEM camera
