## STRDH190

### 2-ch Stereo Receiver with Phono Inputs and Bluetooth®

Enjoy the sweet sound of vinyl, or streaming from your digital music collection. The perfect match for music lovers seeking a stereo system with classic sound from all your music sources.

#### Bullets

---

- 100 watts x 2 (8 ohms, 1 kHz)
- Phono input, 4 stereo RCA audio & 3.5mm inputs, stereo RCA outputs
- Built-in Bluetooth lets you wirelessly stream from other Bluetooth devices®<sup>1</sup>
- Connect up to 4 speakers; A/B switching plays in up to 2-separate zones
- Low-profile design (5 ¼" tall) fits easily into conventional AV cabinet
- FM Radio with 30-station presets; wireless remote control (2AA batteries included)
- Full-size (1/4") headphone jack; 3.5mm audio input
- Volume offset mode automatically adjusts phono input volume
- Pure Direct mode for improved signal clarity and detail
- Hi-Res certified

#### Features

---

##### Phono input for your turntable

Plug your turntable directly into the receiver via the phono input for appropriate pre-amplification and EQ.

##### Smarter Bluetooth® connectivity

Not only can you wirelessly stream and play music from other Bluetooth devices, but with Bluetooth Standby, you can turn on your receiver remotely, and even play back and control your music with voice assistant smart speakers such as Amazon Alexa<sup>1</sup>.

##### Connect other audio equipment

The STR-DH190 has four analog audio inputs and one output, so you can easily connect your other audio equipment and recording devices.

##### Low-profile design

Low-profile design (5 ¼" tall) fits easily and conveniently into conventional AV cabinets

##### Connect up to four-speakers

The STR-DH190's A+B function lets you connect two pairs of speakers. You can easily switch between A or B or use all of them together at the same time.

##### FM tuner with 30-station presets

An FM tuner with 30 digital presets with station names, as well as auto tuning.

##### Remote control, headphone output and 3.5 mm input

Remote control, headphone output and 3.5 mm aux input for use with other audio devices

##### Power amplifier for minimal distortion

A discreet amplifier gives high power and a pure sound.

##### Precision audio with a reinforced chassis

A reinforced rigid, frame and beam chassis design reduces external speaker sound pressure and vibration to help maintain signal fidelity for more focused, powerful sound.

##### Expertly designed to reduce vibration

# SONY

Rigid parts hold the heat sink in place, reducing transmitted vibration from speaker sound pressure.

## The optimal layout for the Phono and transformer

The phono amplifier and transformer are positioned optimally to minimize interference from the magnetic field.

## Large capacity power transformer built for clarity

Care and attention to the highest quality audio starts with the power transformer.

## The Way The Artists Truly Intended

Enjoy the subtlest nuances of studio-quality sound in higher-than-CD quality with High-Resolution Audio. Passion for music unites every component from signal to speaker, so it feels like the artist is performing right in front of you.

## Sound-matched to PS-HX500 and PS-LX300USB turntables

Pair your receiver with either the PS-HX500 or PS-LX300USB to get optimal sound from your vinyl.
