

Programmable IR/RF Remote Control with 2" LCD

OVERVIEW

Versatile programmable handheld remote provides single-room IR control - TV, A/V components, cable and satellite boxes. It is ideal for home theater installations and A/V control in kitchens and bedrooms. Customizable user interface enables dealer to create custom on-screen graphics. When used with a compatible Complete Control base station, it controls A/V components through walls and cabinet doors, even from outside - no need to point the remote or be in the same room.

- Handheld remote with brilliant 2" color LCD - displays up to 6 buttons per screen
- Ergonomic design with backlit hard button keypad
- Delivers single-room, one-way control of IR devices
- Controls A/V through walls and cabinet doors, or from outside
- Lithium-ion rechargeable battery with tabletop charging cradle
- MX-890i features 433 MHz frequency for international and highly-populated markets

HIGHLIGHTS

- Custom Interface** Custom user interface allows dealer to create custom icons, layouts, themes, backgrounds and sounds
- Pickup Sensor** Wakes up when lifted, preserves battery charge
- Timers** Event and Sleep Timers for automated event scheduling
- IR** Range 30-50 feet, frequency 15 kHz to 455 kHz
- RF** Range 50-100 feet, frequency 418 MHz (MX-890), 433 MHz (MX-890i)
- Conditional Logic** Features conditional logic for advanced programming
- File Backup** Allows dealer to archive program files onto computer

SPECIFICATIONS

SKU	MX-890, UPC 656787-208902 / MX-890i, UPC 656787-318908
