Snell

Series 7
M7 Monitor

Ultra High Performance Full - Range Monitor

The M7 is the best bookshelf monitor ever developed by Snell, and for its small size, among the best ever. At just 16-inches high, the M7 can reproduce bass as well as most tower speakers, with output to concert hall levels. It resolves the micro-details of nuance and texture, while eerily reproducing a palpable, three-dimensional soundstage.

Developed by Snell's chief engineer, Joe D'Appolito Ph.D., the M7 is a sophisticated two-way with a very low resonance, silk dome tweeter, and a long excursion 6.5-inch woofer. The crossover is constructed with dedicated circuit boards for both tweeter and woofer. This design assures very low distortion, and optimizes performance when the M7 is bi-amped or bi-wired. The natural cherry or black painted walnut cabinet with solid metal end caps is virtually resonance free and hand made by Snell in Massachusetts.

Accommodating real-world room conditions is perhaps the ultimate demand for a loudspeaker. Cosmetic standards like size and finish, combine with room placement requirements to add significant challenges to speaker design. The beautiful, and compact M7 can be a prominent or a discreet part of your room decor. With its boundary tuning features, place the M7 to blend with the room's furnishings. To further compliment room design, the Snell M7 can be matched to most wood and paint finishes.

Ideal for Music and Movie Systems

The M7 Monitors provide concert hall realism in most listening rooms for two-channel and home theater applications.

M7

Design	Bass Reflex Monitor—Rear Port Requires 1.5-inches from Back Wall		
Frequency Response	45Hz-22kHz±3dB (69Hz-22kHz±3dB @12dB/Octave w/ Port Plug)		
Sensitivity	87dB		
Nominal Impedance	8 Ohms		
Crossover Frequency	2.0kHz		
Recommended Amplifier Power	100-300Watts		
Maximum Output (per pair)	105dB		
Placement	Stand, Wall, or Shelf		
Dispersion Angle	Horizontal: ±15 degrees		
	Vertical: ±15 degrees		
Drive Units	Tweeter: 1-inch SEAS Silk Dome		
	Woofer: 6.5-inch SEAS Treated Paper, 5mm Excursion		
Video Shielding	Standard		
Dimensions	Height:	16-inches	
	Width:	8-inches	
	Depth:	13-inches	
Weight	28 lbs/each		
Finishes	Cabinet:	Real Cherry Veneer	
		Black Painted Walnut	
		Most Wood and Paint Finishes Available	
	Grille:	Silver or Black Perforated Metal 53% Open	
	End Caps:	Solid Aluminum Plate, Anodized Silver or Black	
	Manufactured by	Snell Acoustics, PO 3717, Peabody MA 01960
