

G2 SPEAKER CABLES

SPEAKER CABLE

Semi-Solid Concentric Packing

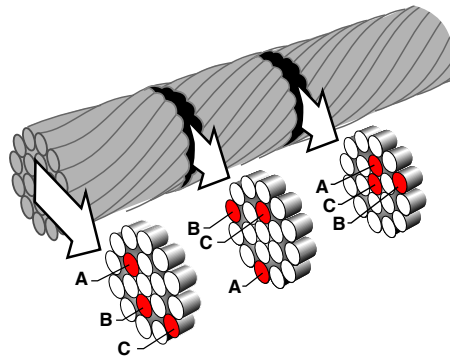

Overall: 2 x 16 AWG (1.23 mm²)

2 x (19 X 29 AWG) **Long-Grain Copper (LGC)**

Semi-Solid Concentric Packing

Dark Gray or Off-White PVC Jacket

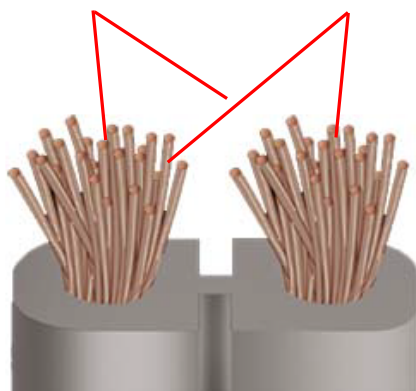

TYPICAL SPEAKER CABLE

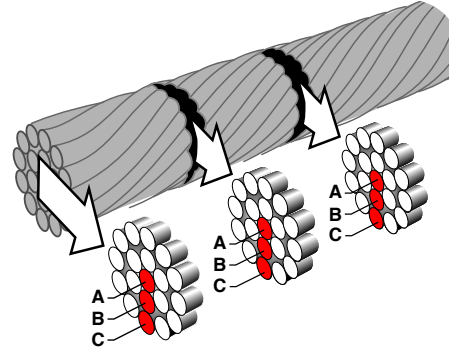

STRANDS CHANGE POSITION

In a conventional cable, distortion caused by electrical and magnetic interaction are compounded as each strand changes position within the bundle.

Normal Multi-Strand Tough Pitch Copper (TPC)

G2

STRANDS DO NOT CHANGE POSITION

In a Semi-Solid concentric packing cable, strands within the smaller, tighter concentric bundle do not change position, significantly reducing distortion.

Semi-Solid Concentric Long-Grain Copper
