- Feature included.
- A. Blower can be swiveled 90° and vented down through cabinet or out back wall.
- B. All models are UL listed for 3-wire 120/240 VAC.
- C. Can vent up to 60 equivalent feet.
- D. Energy Saver grill element has independent control of front and rear sections of grill (2800 watts).
- E. Excalibur® is a registered trademark of Whitford B.V. Corp. Color-coordinated grill covers are tempered glass.

NOTE: Double gas cooktop, Model CVGX2423, may be combined with single electric grill cooktop, Model CVEX4100. Electric cooktop may be placed on either side of gas cooktop and accepts Expressions™ Collection electric cartridges and electric grill accessories. Trim Support Bracket, Model A0918, is required to combine the cooktops.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

CIRCUIT PROTECTION SPECIFICATION GUIDE

Recommended Minimum		
K.W. Rating On Serial Plate	Circuit Protection In Amperes	Wire Size AWG
0 – 4.8	20	12
4.9 – 6.9	30	10
7.0 – 9.9	40	8
10.0 – 11.9	50	8
12.0 – 14.9	60	6

ELECTRIC DOWNDRAFT COOKTOP DIMENSION DIAGRAMS

NOTES

Dimensions shown in both Inches and Centimeters.
Dimension "J" – Provide 2" minimum (5.08 cm) cabinet clearance to motor for cooling purpose.
Dimension "K" – Provide 6 1/4" min (15.88 cm) required for removal of (supplied) grease container(s).
Installed dimension for (supplied) grease container(s) is 5 1/2" (13.97 cm).

Side Clearance – Grills installed near a side wall must allow a minimum clearance of 6" (15.24 cm) between cooktop and side wall for maximum performance.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

IMPORTANT

Dimensions shown in both Inches and Centimeters.

Dimension "A & B" – Tolerances $\pm \frac{1}{16}$ " or $\pm .16$ cm

NOTE

Where possible, 6" (15.24 cm) is recommended for motor blower service. Minimum clearance of 1" (2.54 cm) is required to sidewalls and $\frac{3}{4}$ " (1.905 cm) to rear wall. Electrical Hookup – The unit must be properly circuit protected and wired according to local electrical codes.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

- Feature included
- A. Add approximately 2" for door handle. Dimension given is from wall to front of oven door. Depth with oven door open is 49 3/8".
- B. Jenn-Air® electric ranges feature an 8-pass recessed broil element.
- C. All electric models are UL listed for 3-wire, 120/240VAC.
- D. Model JES8750B has 2, 6" 1200W elements, 1 9"/6" 2400W/700W Dual-Choice™ element, 1 12"/9"/6" 2700/2000/1000W Triple-Choice™ element, and 1, 6" 100W Warming Center™ element. Model JES8850B has 1, 6" 1200W element, 1, 6" 1200W Cook & Warm element that reduces to 35W, 1, 9"/6" 3,000/1400W CustomControl dual element, 1 12"/9"/6" 2700/2000/1000W Triple-Choice™ element, and 1, 6" 100W Warming Center™ element. Model JES9800B has 2, 6" 1200W elements, 1 9" 2500W element, and 1 9"/6" 2400W/700W Dual-Choice™ element. Model JES9900B has 2, 6" 1200W Cook & Warm elements that reduce to 35W, 1, 9"/6" 2400/700W Dual-Choice™ element, and 1, 9"/6" 3,000/1400W CustomControl dual element.
- E. Models JES9750B and JES9860B are shipped with a 1900W electric grill assembly and require the purchase of a radiant or coil element cartridge for the right bay. These models also accept optional electric griddle and electric grill cover accessories. All electric range models accept the optional Wok accessory. See the Range Cartridge and Accessory chart on page 133 for model numbers.
- F. MultiMode® convection options include Convection Bake, Convection Roast, and Convection Pastry. Convection air is also used with the Drying and Thaw & Serve options. For drying, an optional high-quality drying rack is available as an accessory. Order model # DRYINGRACK.
- G. An optional Create-A-Space™ half-rack is available as an accessory. This is a full-width rack that may be converted to a half-rack.
- H. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- I. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes.
- J. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after to one hour Hold time has expired.
- K. Several control setup options may be customized including, but not limited to, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.
- L. Jenn-Air® slide-in ranges may be used in a free-standing installation. In a free-standing installation a backslash and a side panel (if either side is exposed) are required. See the Range Cartridge and Accessories chart on page 133 for model numbers.

SLIDE-IN RANGES

NOTES FROM PAGE 125 SLIDE-IN GAS/DUAL FUEL RANGES

- Feature included
- A. Add approximately 2" for door handle. Dimension given is from wall to front of oven door. Depth with oven door open is 49 3/8".
- B. BTU rates given are for natural gas. BTU rates will vary slightly when LP gas is used, High/Low burner ratings: 16,000/1,600; 15,000/750; 9,200/1,200; 5,000/650.
- C. Gas models are 120 VAC. Dual-fuel models are UL listed for 3-wire, 120/240 VAC and require a separate gas supply.
- D. The EvenThree™ burner offers 15,000 BTU on high with both rings lit and 3,000 BTU on high with the inner ring only lit. Low turn down rates are 750 BTU with only the inner ring lit.
- E. Models JDS9860B and JDS9865B include a gas grill assembly with Even-Heat™ grill burner that may be used in the left bay only and two sealed gas burners. A two-burner module may be purchased to use in place of the grill. BTU ratings for the two-burner module in the grill bay are 8,500 BTUs for each burner. These models also accept optional gas griddle and gas grill cover accessories. All gas and dual-fuel range models accept the optional AO142 Wok accessory. A Wok Ring accessory is also available (not for use with the AO142 Wok). See the Range Cartridge and Accessory chart on page 133 for model numbers.
- F. Range models JGS8850B, JGS8860B and JGS9900B feature Convection Bake, Convection Roast and Convection Pastry plus a Drying Option. Dual-Fuel range models JDS8850B, JDS9860B and JDS9865B feature Convection Bake, Convection Roast and Convection Pastry plus a Drying option and Thaw & Serve option. For drying, an optional high-quality drying rack is available as an accessory. Order model # DRYINGRACK.
- G. An optional Create-A-Space™ is available as an accessory. This is a full-width rack that may be converted to a half-rack.

- H. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- I. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes.
- J. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after to one hour Hold time has expired.
- K. Several control setup options may be customized including, but not limited to, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.
- L. Jenn-Air® slide-in ranges may be used in a free-standing installation. In a free-standing installation a backsplash and a side panel (if either side is exposed) are required. See the Range Cartridge and Accessories chart on page 133 for model numbers.

Excalibur® is a registered trademark of Whitford B.V. Corp.

See chart on page 133 for cartridge and accessory usage.

All Jenn-Air® appliances are appropriately UL, AGA, CSA, or CGA approved.

Dimensions		
	in	cm
A	25	63.5
B	24	61.0
C	30	76.2
D ¹	36	91.4
E ²	23 3/4	60.0
F ³	23 1/4	59.0
G	5 1/2 each side	14.0
H	10	25.4
J	2 1/4	5.7
K ⁴	26 1/16	66.5
L ⁵	35 3/4	90.8
M	30 3/4	78.1

Notes:

- Before attempting installation, adjust range leveling legs to accommodate this dimension.
- Minimum flat area.
- Cut depth. When replacing an existing unit, a maximum cut depth of 23 1/2" (59.7 cm) is acceptable. If the cut depth exceeds 23 1/2", use filler kit, K71FILL.
- Dimension K is from the wall to the side edge of the oven door. It does not include the curvature of the glass or the depth of the handle. The depth dimension including the curvature of the glass and door handle is 29 3/8".
- Dimension L is with the leveler legs adjusted all the way in. This may vary slightly upon leveling leg adjustment.
- Do not use grout, epoxy, etc., to install this unit. Installation must allow for removal of this appliance from the installed location for purposes of servicing.
- Provide for either a 3-wire or 4-wire 120/208, 120/240 volt outlet per

applicable cord in shaded area shown. Refer to installation instructions for proper positioning of outlet.

- Side Clearance - Ranges installed near a side wall must allow a minimum clearance of 3" (7.5 cm).
- Overhead Cabinetry - Provide 30" (76.2 cm) minimum vertical clearance between cooking surface and construction above the appliance. Allow 13" (33.02 cm) maximum depth of cabinets installed above cooking surface.
- A slide-in range, if equipped with optional backguard kit, may be installed zero inches from wall. For freestanding range look, must use optional backguard kit and optional side panel kits.
- Downdraft ranges can be vented to the equivalent of 60 feet. See installation instructions for downdraft ventilation.
- Gas models are convertible to LP gas. Components are supplied with range, however it is recommended a qualified servicer perform the conversion.

Dimensions		
	in	cm
A	36	91.4
B	30 min.	76.2
C	30	76.2
D ¹	13 max.	33
E	18 min.	45.7
F	3 min.	7.6

Notes:

- Depth of cabinets above cooktop.
- 0" clearance between adjacent combustible construction and the back and sides of the range below the cooking surface.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

Caution: Some white European style cabinets are equipped with delicate white vinyl drawer and door fronts. The vinyl may not be designed to withstand the heat produced by the normal safe operation of a self-cleaning range. Discoloration or delamination may occur. To avoid possible damage, we recommend increasing the 30" (76.2 cm) cabinet opening to 31 1/4" (79.4 cm) minimum and using a heat shield kit (CABKIT V), which may be ordered separately. The countertop cutout must remain 30" (76.2 cm).

IMPORTANT: Cutout Dimensions are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

Locating the range

Do not set range over holes in the floor or other locations where it may be subject to strong drafts. Any opening in the wall behind the range and in the floor under the range should be sealed. Make sure the flow of combustion or ventilation air is not obstructed.

Note: A range should NOT be installed over kitchen carpentry.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

• Feature included.

A. Add approximately 2 3/8" for door handle. Dimension given is from wall to front of oven door. Depth with door open is 48 7/8" for JDR/JGR models.

B. Hi/Lo burner rates: 16,000/2200; 12,000/1400; 9,200/800; 5,000/600. Total Connected Load-KW @ 240V for JDR8895 is 5.2. See chart on page 131.

C. Model JDR8895AAB/W/S has matte black burner grates and burner caps. Models JGR8775QDB, JGR8775QDS, JGR8875QDB and JGR8875QDS have gloss black burner grates and caps. Models JGR8775QDW and JGR8875QDW have gloss gray burner grates and caps. Model JGR8775QDQ has gloss taupe burner grates and caps.

D. MultiMode[®] Convection selections include Convection Bake, Convection Roast and Drying. For drying, an optional high-quality dry rack is available as an accessory. Order model # DRYINGRACK.

E. The Create-A-Space[™] half-rack is a full-width rack that converts to a half-rack.

F. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking time/temperature to the correct settings for convection cooking.

G. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.

See chart on page 133 for cartridge and accessory usage.

All Jenn-Air[®] appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

- Feature Included
- A. Models PRG4810NP and PRG4810LP have a 5.3 cu. ft. main oven with convection and a 2.2 cu. ft. secondary bake oven.
- B. High and low BTU rates shown are for Natural gas. BTU rates will vary slightly when LP gas is used.
- C. The Dual FlameTM burner offers 15,000 BTU on high with both rings lit and 1500 BTU on high with the inner ring only lit. Low turn down rates are 4,000 BTU with both rings lit and 570 BTU with only the inner ring lit.
- D. Gas Models are 120 VAC. Dual-fuel models are UL listed for 3-wire 120/240 VAC and require a separate gas supply.
- E. All Pro-Style[®] free-standing gas range models have matte black burner grates and burner caps.
- F. Dual-fuel models PRD3030NP and PRD3630NP may be converted to LP gas. A conversion kit is included, however it is recommended that a qualified servicer perform the conversion.
- G. PRD model and PRG model ranges require use of a PRAD or PRAG model backsplash. 30" models PRG3010NP, PRG3010LP and PRD3030NP are shipped with a 9" backsplash but accept other backsplashes. See Accessory Usage chart on page 133 for backsplashes available for all models.
- H. See pages 144-148 for hood specifications and features.

All Jenn-Air[®] appliances are appropriately UL, AGA, CSA or CGA approved.

- Feature Included
- * Excluding oven door handle. Add approximately 2 ¼" for door handle.
- A. MultiMode® convection selections include Convect Bake, Convect Roast, Convect Broil and Convect Pastry. Convection air is also used with the Drying and Thaw & Serve options. Model JJW9330DD also has a drying option. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.
- B. Oven models JJW8527DD and JJW8530DD have one EasyRack™ oven rack and one off-set rack. Oven models JJW9527DD and JJW9530DDP have one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half rack which is a full-width oven rack that may be converted to a half-rack. Convenience oven model JJW7530DD has one oven rack specially designed for toasting. Oven model JJW8330DD has two standard oven racks. Oven model JJW9330DD has two standard oven racks and a Create-A-Space™ half-rack.
- C. The Automatic Convection Conversion option takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- D. The Favorite Setting option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes. Oven models JJW8330DD, JJW9330DD and convenience oven model JJW7530DD has memory for one Favorite Setting.
- E. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.
- F. Jenn-Air® wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.
- G. The Setup pad on the wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

Electrical Requirements: Provide for 120/240 or 120/208 VAC, 60 Hz. See serial plate on front of unit for power requirements.

* Hole must be cut as close to corner of cabinet as possible.

** Excluding door handle

NOTES FOR CHART ON PAGE 138 (DOUBLE ELECTRIC WALL OVENS)

U=Upper, L=Lower, B=Both

• Feature Included

* Excluding oven door handle. Add approximately 2 1/4" for door handle.

- A. MultiMode® convection selections include Convection Bake, Convection Roast, Convection Broil and Convection Pastry. Convection air is also used with the Drying and Thaw & Serve options. Model JJW9230DD also has a drying option. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.
- B. Oven model JJW8627DD has one EasyRack™ oven rack, and one offset rack in each oven. Oven model JJW9627DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in the upper oven and one EasyRack™ oven rack and one offset rack in the lower oven. Oven model JJW9827DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in each oven. Oven model JJW8430DD has two standard oven racks in each oven. Oven model JJW8630DD has one EasyRack™ oven rack and one offset rack in each oven. Oven model JJW9430DD has two standard oven racks in each oven plus a Create-A-Space™ half-rack in the upper oven. Oven model JJW9630DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in the upper oven and one EasyRack™ oven rack and one offset rack in the lower oven. Oven model JJW9830DD has one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half-rack in each oven. The EasyRack™ oven rack has an opening at the front of the rack for easily grasping cookware without handles or sides, such as cookie sheets and baking stones. The Create-A-Space™ half-rack is a full-width rack that may be converted to a half-rack.

- C. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.
- D. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes. Oven models JJW8430DD and JJW9430DD have memory for one Favorite Setting.
- E. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.
- F. Jenn-Air® wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.
- G. The Setup pad on the wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

** Lower oven cavity on combination ovens

A. MultiMode® convection selections include Convect Bake, Convect Roast, Convect Broil and Convect Pastry. Convection air is also used with the Drying and Thaw & Serve options. Oven model JMW9330DD also has a drying option. For drying, an optional high-quality mesh drying rack is available as an accessory. Order model #DRYINGRACK.

B. Oven models JMW8527DD and JMW8530DD have one EasyRack™ oven rack and one off-set rack. Oven model JMW9527DD and JMW9530DD have one EasyRack™ oven rack, one offset rack and one Create-A-Space™ half rack. Oven model JMW8330DD has two standard oven racks. Oven model JMW9330DD has two standard oven racks plus a Create-A-Space™ half rack. The EasyRack™ oven rack has an opening at the front of the rack for easily grasping cookware without handles or sides, such as cookie sheets and baking stones. The Create-A-Space™ half rack is a full-width rack that may be converted to a half-rack. Gas wall oven JGW8130DD has two standard oven racks. An optional half-rack, model # HALFRACK, is available. To order, contact a Jenn-Air dealer.

C. The microwave on models JMW8527DA, JMW9527DA, JMW8530DA and JMW9530DA has the same features as model JMC8127DD/JMC8130DD (see pages 142-143 for microwave features and specifications). Models JMW8330DA and JMW9330DA have a 2.1 cu. ft., 1100 watt microwave. Features include 10 power levels, sensor-controlled cooking, electronic controls, digital display with clock, one-touch cook pads, rapid defrost, auto and timed defrost, custom programs and Easy Cook.

D. The Automatic Convection Conversion feature takes the guesswork out of convection cooking by automatically converting standard cooking temperature/time to the correct settings for convection cooking.

E. The Favorite Settings option ensures consistent results every time by allowing you to name, program and save the cook time, oven temperature and cooking method for up to 10 of your favorite recipes. Models JMW8330DA, JMW9330DA and gas wall oven model JGW8130DD have memory for one Favorite Setting.

F. The Cook & Hold option keeps food warm for up to one hour after the cook time has expired. The oven automatically turns off after the one hour Hold time has expired.

G. Jenn-Air® electric wall ovens with convection offer a Bread Proofing feature that provides a controlled environment for proofing or allowing yeast bread products to rise in the oven prior to baking. Two methods are provided – Standard Proofing and Rapid Proofing.

H. The Setup pad on the electric wall oven control panel lets the user customize several oven functions and features. These include, but are not limited to, language option of English, French or Spanish, Fahrenheit or Celsius temperature display, and an Energy Saver option that allows the control display to go dark when the oven is not in use.

I. White and black models have color-matching handles.

*** Built-In Microwave Models JMC8127, JMC8130 and JMC9158 may not be installed above gas wall oven Model JGW8130.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

MICROWAVE WALL OVEN COMBO DIMENSION DIAGRAM

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

NOTES: Installed combo wall oven overlaps the cut out 15/16" (2.38 cm) at the top and 1/8" (.32 cm) at the bottom. This must be taken into consideration when locating cutout if installed unit is to be centered in the cabinet.

These appliances have been designed in accordance with the requirements of various safety agencies and comply with the maximum allowable wood cabinet temperatures of 194°F. If these appliances are installed with cabinets that have a lower working temperature than 194°F, discoloration, delamination or melting may occur.

- Feature included.
- A. Excluding door handle. Add approximately 2 1/4" for door handle.
- B. Model JMV8208 has a rectangular slide tray that accommodates large pans. It slides from side to side to ensure even heating.
- C. Safely keeps cooked food warm for up to 99 minutes (JMC9158) or 90 minutes (JMV8208) using microwave energy. May be used by itself or to automatically follow a cooking cycle.
- D. Model JMC9158 features Convection cooking, Combination Bake, Combination Roast, Auto Bake (4 selections) and Auto Roast (4 selections). Model JMV8166 features variable temperature Convection Cook, Combination Roast and Micro Convection (4 selections). Model JMV9169 features variable temperature Convection Cook, Combination Speed Cook (4 modes) Micro Convection (4 categories) and Auto Broil (4 categories).
- E. Control setup options include display language, display scroll speed, sound control, lbs/kg, clock, Daylight Savings time (select models) and Demo Mode (select models).
- F. For best results, leave the turntable on during cooking.
- G. The ventilation fan automatically activates when the temperature gets too hot around the microwave. The fan may also be turned on and off manually from the microwave control panel. Model JMV8208 features a vent auto time set pad for setting 1 - 30 minutes of ventilation time. Models JMV8166 and JMV9169 have a fan delay option.
- H. Over-the range microwaves are preset for recirculating ventilation, but may be converted to outside ventilation. Duct size is 3 1/4" x 10". Accessories include replacement charcoal filters and grease filters, exhaust damper assembly and hardware for installation. To purchase, contact a Jenn-Air Parts Distributor or call Consumer Parts Sales at 1-877-232-6771.
- I. Trim kits to install JMC9158 above Jenn-Air® wall ovens include: AST2780AB/W/C/S for 27" wall oven. Installed dimensions are 20 5/16" H x 26 7/8" W. AST3080AB/W/C/S for 30" oven. Installed dimensions are 20 5/16" H x 29 3/4" W.

JMC8127, JMC8130 and JMC9158 may not be installed above a gas wall oven.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

OVER-THE-RANGE MICROWAVE OVEN DIMENSION DIAGRAM

MODEL JMC9158 MICROWAVE OVEN
INSTALLATION ABOVE SINGLE ELECTRIC WALL OVEN

Note 1: When installing this Kit above a built-in oven, check built-in oven installation instructions to determine cutout dimensions for the (lower) wall oven.

Note 2: For a new installation, the 48" height dimension to the bottom of the cutout for the microwave oven is recommended. This places the microwave oven bottom at approximately 50" from the floor.

- Feature included.
- A. Stainless steel integrated hood liners are available for using the JXT7036 ventilation system in 42" (order liner JXT7142ADS) or 48" (order liner JXT7148ADS) installations.
- B. Ducting configurations and length can affect airflow rates. Ratings shown are based on hoods with correctly installed ducting.
- C. No conversion kit is required for ductless installation for wall mount and island mount chimney hoods. Order carbon filters referenced in chart above that snap into the hood.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

KITCHEN VENTILATION

DIMENSION DIAGRAM FOR MODEL JXT7036 INTEGRATED VENTILATION SYSTEM

NOTE: Minimum mount height between range top to hood bottom should be no less than 24". Maximum mount height should be no higher than 32". It is important to install the hood at the proper mounting height. Hoods mounted too low could result in heat damage and fire hazard; while hoods mounted too high will be hard to reach and will lose performance and efficiency.

- Feature included.
- A. Ducting configurations and length can affect airflow ratings. Ratings shown are based on hoods with correctly installed ducting.
- B. No conversion kit is required for ductless installation for JXT5836 and JXT5830 model hoods. Order carbon filters referenced in chart above that snap into the hood. For UXT5436, UXT5236, UXT5430 and UXT5230 model hoods order kits and replacement carbon filters referenced in chart above for ductless installation. It is recommended to always exhaust air outside of the home if possible as the hood is most effective and efficient as an exhaust unit.

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

• Feature Included

- A. Electric models are UL listed for 3-wire 120 VAC.
- B. Includes Jenn-Air® electric wall oven models JJW7530, JJW8330, JJW8530, JJW9330, JJW9530, JJW8430, JJW8630, JJW9430, JJW9630, JJW9830, JMW8330, JMW8530, JMW9330, JMW9530 and Jenn-Air® gas wall oven JGW8130. Jenn-Air® electric cooktop models JEC8430, JEC8536, JEC9530, JEC9536, JEC0530, JEC0536 and Jenn-Air® gas cooktop models JGCP430ADP, JGCP636ADP, JGCP648ADP, JGC8430, JGC8536, JGC8645, JGC9430 and JGC9536.
- C. Order model number DRAWERPANS.
- D. A drawer front is required for mounting to the JWD7030CDX or JWD6030CDX base unit. Order the front that coordinates with your Jenn-Air® wall oven and/or cooktop or best compliments the room's décor. Order the panel kit for installing a custom panel on the JWD7030CDX warming drawers to match surrounding cabinetry. Depending on the style of cabinetry and construction of the custom panel, the front of the custom panel on the warming drawer may not fit flush with surrounding cabinetry. When using the panel kit, installation of a custom handle is required (purchase custom panel and handle separately).

CIRCUIT PROTECTION SPECIFICATION GUIDE

Recommended Minimum		
K.W. Rating On Serial Plate	Circuit Protection In Amperes	Wire Size AWG
0 – 4.8	20	12
4.9 – 6.9	30	10
7.0 – 9.9	40	8
10.0 – 11.9	50	8
12.0 – 14.9	60	6

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

WARMING DRAWER

PRODUCT DIMENSIONS

NOTES:

- A. 3/8" venting gap (when fully closed) from front of cabinet surface to back of drawer face.
 B. 7/8" gap (when fully closed) from front of cabinet surface to back of drawer front panel.

INSTALLATION UNDER A COUNTER

CUSTOM PANEL INSTALLATION KIT

This kit contains a mounting panel to attach to a custom drawer front. A custom handle of your choice must be installed with the front on the mounting panel.

Parts supplied:

- Mounting panel
- 7 mounting screws

The warming drawer should be installed according to the installation instructions packed with the product.

- The edges of the custom drawer front will be visible and should be finished for best appearance.
- The custom drawer front should be constructed in the same manner as typical cabinet doors.
- When ordering the custom drawer front from the cabinet manufacturer the overall dimensions should be 10 1/2" high by 29 7/8" wide.
- Order a custom handle to match the surrounding cabinetry handles.

Mounting options:

- Adhesive (recommended for panels less than 3/4" thick)
- Screws (for 3/4" panels)

CAUTION: Select screw length to avoid penetration of finished side. Do not drill completely through the custom panel.

INSTALLATION BELOW A SINGLE WALL OVEN

NOTE: Electrical receptacle can be installed as shown for countertop installations. Do not install receptacle above the top of the warming drawer cutout.

INSTALLATION BELOW A DOUBLE WALL OVEN

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

JMC8130 MICROWAVE AND WARMING DRAWER INSTALLATION

JMC8130 MICROWAVE, SINGLE WALL OVEN
AND WARMING DRAWER INSTALLATION

DIM A (With Warming Drawer) = 69"
DIM A (Without Warming Drawer) = 59 1/4"

JMC8130 MICROWAVE, JJW7530 CONVENIENCE OVEN AND WARMING DRAWER INSTALLATION

DIM A (With Warming Drawer) = 62 1/2"
DIM A (Without Warming Drawer) = 59 1/4"

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

MULTIPLE OVEN INSTALLATION OPTIONS

JJW7530 CONVENIENCE OVEN, SINGLE WALL OVEN AND WARMING DRAWER INSTALLATION

NOTE: When installing the Convenience Oven above a Single Wall Oven or another Convenience Oven, a bracket to combine the two ovens is required. Order part # CONVBRAKT. The bracket kit includes a black front air grille that bridges the gap between the upper and lower ovens.

Mount the stacking brackets to the lower oven using the screws provided in the kit. Place the upper oven on the brackets and secure with the remaining screws.

NOTE: Lower oven may require drilling four 1/8" (3.175mm) diameter holes using the stacking bracket as a template.

JJW7530 CONVENIENCE OVEN OVER JJW7530 CONVENIENCE OVEN INSTALLATION

NOTE: When installing the Convenience Oven above a Single Wall Oven or another Convenience Oven, a bracket to combine the two ovens is required. Order part # CONVBRAKT. The bracket kit includes a black front air grille that bridges the gap between the upper and lower ovens.

Mount the stacking brackets to the lower oven using the screws provided in the kit. Place the upper oven on the brackets and secure with the remaining screws.

NOTE: Lower oven may require drilling four 1/8" (3.175mm) diameter holes using the stacking bracket as a template.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

- A. Depth is with 3/4" cabinet panel installed.
Door clearance required at 90° is 16 3/8" min.
- B. Order part #JIMPUMPAXX. For use when gravity drain is not available.

All Jenn-Air® appliances are appropriately UL, AGA, CSA or CGA approved.

CUSTOM DOOR PANEL DIMENSION DIAGRAM

Custom Handle

1. A custom handle (not supplied) must be installed.
2. Drill pilot holes through the custom panel to match the handle. Countersink the holes in the back of the panel.
3. Attach the custom handle to the front door panel assembly.

NOTE: The custom handle screws should be installed through custom panel and into the custom handle. The screw heads should be countersunk so the inside panel surface can be installed flush with the ice machine door.

BUILT-IN UNDER COUNTER ICE MACHINE DIMENSION DIAGRAMS

1 1/2" I.D. drain pipe, up to 3" high above floor

Drain Pump Kit for Clear Ice Machine (#JIMPUMPAXX)

This scaled reservoir drain pump is designed exclusively for ice machines that require a drain and where a floor drain is not readily available.

Water Connection

1/4" inlet water line. If water line is connected directly behind the ice maker, allow an additional 2" clearance.

Water pressure required:
20-100 PSI

- A. Energy Star® models exceed 2004 Federal Energy Efficiency Standards by 15%.
- B. Stainless steel models feature a black textured steel cabinet, stainless steel door with full-length handles, black convenience center (dispenser models) and a black kickplate. Model JCD2295KES has stainless steel towel bar handles. Model JCD2295KEP has Pro-Style stainless steel towel bar door handles with diamond-etched grip. Model JCD2297KEF/Y has glass front doors with stainless steel towel bar handles.
- C. Factory installed perimeter trim is set to 1/8" at the factory and adjusts to 1/4" maximum. See page 162 for door panel dimensions.
- D. Factory installed trim models JCD2292KTW/B do not have curved door perimeter.
- E. Models JCD2290HES and JCD2292KTW/B feature full-length, silver etched, soft touch handles. Models JCD2295KES and JCD2297KEF/Y feature full-length, stainless steel towel bar handles. Model JCD2295KEP features full-length Pro-Style™ stainless steel towel bar handles with diamond-etched grip. Model JCD2290HEB/W/Q features easy-grip, color matching, contoured handles.

Designer Panel & Trim Kits Custom color your Jenn-Air® refrigerator and create your own designer-look kitchen. Over 60 contemporary colors and mirrored finishes, stainless steel, satin alloy, 25 designer patterns of solid surface countertop veneer, and any type of real wood panels. All kits are custom made to order – call Frigo Design at 800-836-8746.

Jenn-Air offers PuriClean® replacement filter with change reminder light, UKF8001AXX, that removes lead, cysts, chlorine, and particulates and select pesticides and insecticides as well as bad tastes and odors that may be present in the water supply. The filter retains fluoride, a beneficial nutrient. To order replacement filter cartridges, call 1-800-688-8408.

All Jenn-Air® appliances are appropriately UL, CSA or CGA approved.

** Add 1/2" on all sides for ease of installation. Depth dimensions given include 1/2" back air clearance.

Cabinet Opening Dimensions for all models	
	in
A	24
B	24
C	34-35
D	7
E	3
F	5
G	8
H	5

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

Dishwasher Cabinet Opening

1. Preferred drain area.
2. Keep back free of drain, water & electrical supply.
3. Minimum 32" drain loop, 1/2" minimum. Floor drains require a siphon break.
4. Electrical and plumbing should meet all local and national codes.
5. Electrical and water supplies should enter cabinet opening on the floor, or through the back or side walls, as shown in the shaded portion of drawing.
6. Connections preferably located toward left side of dishwasher. Care should be taken to route water and electrical away from motor and blower (if equipped).
7. When dishwasher is installed in or near a corner, allow enough room for the door to open without interfering with cabinet drawers or hardware.

DISHWASHER DECORATOR PANEL INSTALLATION (WOOD)

Models JDB2100, JDB1250, JDB1100, JDB1090

Construction of Wood Panel

Door Panel Dimensions		
	in	cm
A	23 1/2	59.53
B	29 1/2	75.88
C	1/2	1.9

NOTE: Maximum weight of custom panel is 16 lbs.

For Handle Provided with Dishwasher

Attachment Locations for Wood Panel

NOTE: Drill attachment pilot holes to 3/8" deep. Template provided with unit.

For Custom Handle

If using any type of custom handle, it would be best to contact a professional cabinetmaker. All fasteners **MUST** be flush with the back of the panel to ensure a proper fit, e.g. countersink a flathead screw.

NOTE: Custom handle must be centered on custom panel. Fastener thread length for a front mounted custom handle should be no longer than thickness of custom panel.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

TRASH COMPACTOR

TRASH COMPACTOR DIMENSION DIAGRAMS

TC507			
■	Dimensions		● Notes
	in	cm	
A	34 ¾ min.	87.0	1 23" (58.4 cm) clearance in front of the compactor is needed to fully open or remove compactor drawer.
B	24 ¾ min.	62.9	
C	18 min.	45.7	2 6" (15.2 cm) clearance to the nearest vertical wall on the right-hand side of compactor is needed to remove bag.
D	15 ¼ min.	38.7	
E	24 min.	61	
F	3	7.6	
G	34 ¾ - 34 ½	86.7-88.0	
H	15	38.0	
I	24	61.0	

Grounded electrical outlet must be a minimum of 3 in. (7.6 cm) away from surrounding cabinets or nearby walls as shown. It can be placed either to the left or right side of the product.

TRIM KIT PANEL DIMENSIONS

Flat panel

Raised panel

Trimless panel with handle

Trimless panel without handle

CUSTOM PANEL INSTALLATION (USING TRIM KIT TCD B/W/Q)

	in	cm
A	14 5/8	37.2
B	23 13/16	60.5
C	5/16	0.8
D ³	5/16	0.8
E	1 1/4	3.2
F ⁴	7/32	0.5

IMPORTANT: Cutout Dimensions Are Critical. Refer to installation instructions packaged with product BEFORE making cutouts.

Notes:

1. Raised panel or decorative trim
2. Outer section of panel
3. Both sides
4. For a flat panel, a 7/32" thick panel is required. For a raised panel, the outer section of panel must be 7/32" thick to fit into trim.

CUSTOM PANEL INSTALLATION (TRIMLESS PANEL WITH HANDLE)

	in	cm
A	15	38.1
B	23 13/16	60.5

Notes: The panel should be 1/2" to 5/8" thick. A thicker panel may need rounded front corners and a cut-out for access to the handle.

CUSTOM PANEL INSTALLATION (TRIMLESS PANEL WITHOUT HANDLE)

	in	cm
A	15	38.1
B	25	63.5

Note: The panel should be 1/2" thick.

Refer to Use & Care Guide shipped with product for complete panel installation instructions.

IMPORTANT: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

The Long Duct Run
With Jenn-Air's powerful blower, Jenn-Air downdraft grill-ranges and grill-range cooktops can vent up to the equivalent of 60 feet.
Here's how it works.
For duct runs equivalent to 30' or less, install as received. For duct runs equivalent to 31' to 60', simply snap out the restrictor ring on the blower inlet housing. See Installation Instructions for specific information.

Grill-Range/Cooktop Ducting Accessories
Model A403 Surface Wall Cap—Single damper; down discharge. Fits 3-1/4" x 10" duct.
Model A405 Surface Wall Cap—Single spring-loaded damper; down discharge. Fits 5" diameter duct. Requires opening 5-1/2" in diameter.
Model A406 Surface Wall Cap—Single spring-loaded damper; down discharge. Fits 6" diameter duct. Requires opening 6-1/2" in diameter.
Model A456 Transition—5" to 6" round duct.

Important: Because of continuing product improvements, Jenn-Air reserves the right to change specifications without notice. Dimensional specifications are provided for planning purposes only. For complete details see installation instructions packed with product before selecting cabinetry, making cutouts or beginning installation.

- Notes:**
- A. For venting up to the equivalent of 60', use standard steel ducting and elbows.
 - B. **IMPORTANT:** See installation instructions shipped with product before selecting island cabinetry, making cutouts or beginning installation. For best performance, it is suggested that no more than three 90 degree elbows be used with 6" or 3 1/4" x 10" duct. Each foot of metal flex duct counts as two feet of rigid metal duct. Each flex elbow counts as two metal elbows. For longer duct runs of 31' to 60', the restrictor ring on the blower inlet housing must be removed. 6" round or 3 1/4" x 10" duct must be used for ducting beyond 10' (up to 60'). Failure to follow ducting recommendations or use recommended ducting accessories may result in substandard performance.
 - C. Count each 90 degree elbow as 5' of duct.
 - D. When venting electric ranges or cooktops, 5" diameter round duct may be used to vent straight out the back of appliance and directly through the wall for runs of 10' or less.
 - E. When venting dual-fuel ranges and gas cooktops, 5" diameter round duct must be used for runs of 10' or less.
 - F. When installing through a slab, it is essential that the system be properly calculated, designed and installed before the house is built, when the slab is poured.

WALL CAPS/ THERMAL BREAKS

Part 708786^A
Fits 5" (12.7 cm) Round Duct. Adds 2 ft. to duct length calculation.

Model A405
Fits 5" (12.7 cm) Round Duct. Requires 5 1/4" (13.34 cm) Dia. opening.

Part 715557^A
Fits 6" (15.24 cm) Round Duct. Adds 2 ft. to duct length calculation.

Model A406
Fits 6" (15.24 cm) Round Duct. Requires 6 1/4" (15.875 cm) Dia. opening.

Model A403
Single-damper down discharge to fit 3 1/4" x 10" (8.255 cm x 25.4 cm) duct

Maytag Customer Service
P/N 701943^A
Roof Jack 10" x 10" (25.4 cm x 25.4 cm) duct

A. The above model numbers may be ordered through your authorized service dealer.

Do	Don't
Use 5" (12.7 cm), 6" (15.24 cm), or 3 1/4" x 10" (8.255 cm x 25.4 cm) pipe as recommended for your model	Use 4" (10.16 cm) dryer vent pipe or flex duct*
Use recommended wall caps	Use laundry-type wall cap
Use no more than one 90° elbow with five inch (12.7 cm) duct or three 90° elbows with six inch (15.2 cm) or 3 1/4" x 10" (8.255 cm x 25.4 cm) duct	Overrun your system with too many bends and turns
Duct system to the outside	Vent into an attic or crawl space, walls and concealed space of building
Mix 6" (15.24 cm) duct and 3 1/4" x 10" duct (8.255 cm x 25.4 cm) within the same system if necessary	Reduce back to 5" (12.7 cm) system after using 6" (15.24 cm) or 3 1/4" x 10" (8.255 cm x 25.4 cm)
Tape all joints securely with several wraps of tape	Butt joints, always use male-female connections in direction of flow
Use one unit per duct system	Exhaust more than one unit into a single system

* Although not recommended, 5" or 6" metal flex duct may be used. Due to the irregular surface of flexible ducting, each foot of flex duct counts as two (2) feet of regular metal duct. Also each elbow made in flex duct would count twice as much as standard metal elbow. The best idea with flexible ducting is to keep it as short and as straight as possible.

PLATINUM WARRANTY*

All Jenn-Air® appliances carry a minimum warranty of 1st year free parts and labor. Warranties begin on the date of purchase. The chart below details specific warranties by product category. The years after date of original purchase are listed across the top.

PRODUCT	YEARS								
		1	2	3	4	5	10	12	Lifetime
COOKTOP, WALL OVEN, CONVENIENCE OVEN, RANGE <i>(Gas or Electric)</i>	PARTS	All	Glass-Ceramic Cooktop Due to Thermal Breakage; Electric Heating Elements Including Surface Elements, Bake and Broil Elements; Electronic Controls; Gas Sealed Burners						
	LABOR	Yes							
WARMING DRAWER	PARTS	All							
	LABOR	Yes							
COOKING ACCESSORIES	PARTS	All	Glass-Ceramic Top Due to Thermal Breakage; Electric Surface Heating Elements; Gas Sealed Burners						
	LABOR	Yes							
COMBINATION MICROWAVE/WALL OVEN	PARTS	All	Electronic Control Panel Components; Electric Bake and Broil Elements; Microwave Energy Components						
	LABOR	Yes							
BUILT-IN MICROWAVE OVER-THE-RANGE MICROWAVE	PARTS	All	Limited to Magnetron Tube, Touch Pad Assembly, Microprocessor						
	LABOR	Yes							
HOOD	PARTS	All							
	LABOR	Yes							
DISHWASHER	PARTS	All	Microprocessor and Touch Pad Assemblies, Cabinet Front Panel Rust, Wash System Pump and Motor, Wash Arms and Sensor Package, DuraGuard® Rack Finish						
	LABOR	All	Door Liner (if liner fails due to water leak) Lifetime Full Warranty Dishwasher Replacement (if tub fails due to water leak) Lifetime Full Warranty						
BUILT-IN REFRIGERATOR	PARTS	All	Sealed Refrigeration System (consisting of the Compressor, Evaporator, Condenser, Drier and Connecting Tubing) which fails in normal home use.						
	LABOR	All	All	All	Mileage and transportation charges, if required, shall be the responsibility of the owner.				
REFRIGERATOR WINE CELLAR, UNDER COUNTER REFRIGERATOR, ICE MAKER	PARTS	30 Days for Water Filter Cartridge	Limited to Interior Cabinet Liner (exclusive of door liner) and Sealed Refrigeration System						
	LABOR	Yes	(Installation labor only) Limited to Interior Cabinet Liner (exclusive of door liner) and Sealed Refrigeration System						
COMPACTOR	PARTS	All							
	LABOR	Yes							
SMALL APPLIANCES MIXER BLENDER TOASTER	PARTS	Hassle-Free Replacement							
	LABOR								

*Warranty stated covers only those models specified in this catalog. See a Jenn-Air® dealer for model specific warranty information.

OWNER'S RESPONSIBILITIES

The customer has certain responsibilities which must be satisfied to qualify for coverage under these warranties. For all products, the owner is responsible for providing normal care and maintenance in accordance with the Use & Care Instructions, providing proof of purchase on request, proper installation and making the appliance reasonably accessible for service. For refrigerators, the owner will pay for service calls or trip charges to analyze sealed system defects, including related labor costs and mileage and/or transportation, if required, for the service second through fifth years.

WARRANTY SERVICE

Under the full warranty, service must be performed by an Authorized Jenn-Air Service Contractor. To obtain service, contact the dealer from whom the unit was purchased, an authorized Service Contractor, or contact Jenn-Air Customer Assistance, c/o Maytag Appliances Sales Company, P.O. Box 2370, Cleveland, TN 37320, 1-800-JENN-AIR (U.S. and Ontario) or 1-423-472-3333. Please include model number, serial number and date of original retail purchase in all correspondence. Service will be provided during normal business hours. All replacement parts assume the unused portion of this warranty. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

CANADIAN RESIDENTS

This warranty covers only an appliance installed in Canada that has been certified to a National Standard of Canada unless the appliance is brought into Canada due to transfer of residence from the United States to Canada.
